- III OPENING MEDITATION; MAYAN CALENDAR; HOUSEKEEPING; LINK TO PODCAST**
- IV HARD NEWS**

I TO ACCESS THE THREE WEEKLY CALLS via the Internet

A BBS RADIO Go To www.bbsradio.com; click on "64K Listen"

* **Thursday: A Night at the Round Table** **Hosts: Panel Members**
6 pm Pacific / 9 pm Eastern

* **Friday: Friday Night Hard News** **Hosts: Tara & Rama**
6 pm Pacific / 9 pm Eastern

One Hour conference Call: 1-641-741-1704 Access Code: 353 863#

* **Saturday: History of our Galactic World & NESARA** **Hosts: Tara & Rama**
1:30 pm Pacific / 4:30 pm Eastern

One Hour conference Call: 1-720 716 7301 – Access Code: 353 863#

Call to interact / ask questions:

Canada & US: STATION 2 1- 888-429-5471
Direct 1- 323-744-4841

B CALL-TO-LISTEN 1-804-220-6484

C Skype: BBSradio2

D Archives for the 3 Programs listed above:

- Go to *BBSRadio.com*; in first column, LHS, **FIND TALK SHOW**
- Enter *Friday Hard News*, press the GO button. You'll be taken directly to **Hard News on Friday**; click on "**Archives**" which takes you to the listing of all program archives, the latest one being at the top.
- You can listen directly or download the program to your own computer.
 - To listen directly, click on the arrow on the black bar.
 - To download, go to **Episode MP3 link**. Then **right click** on the name '**hardnewsonfriday including the date**' and the drop down menu appears. Click on '**save link as**'

E Archives, written and audio, also exist on the rainbowroundtable website:
www.rainbowroundtable.net - look under the "Archives" tab for **written notes which include links to the entire podcast, and links to the audio recordings** of the conference calls

II TO ACCESS OTHER CALLS SUPPORTED BY RainbowRoundtable.net

A Sunday, Mondays: 9 – 10:30 EST Cheryl Croci's Activation Calls
By telephone only: 1-425-436-6260; PIN 9467 441#

B Tuesdays, 2nd & 4th of each month: Ashtar on the Road; Ashtar Legacy Calls
9:00 – 10:30 pm EST Host is Fran

<http://www.ashtarontheroad.com/ashtarconferences.html>

To access **by Phone:** • 1 – 559 – 726 – 1300; PIN 972400#
• Call is free [except for long distance charges]

via HD Conferencing: 712-770-4160 **PIN #** 980339 [always the same]

<https://www.freeconferencecallhd.com/hd-conferencing/>

via Skype **Click on the VOIP button** and enter what they ask for:
<https://www.freeconferencecallhd.com/hd-conferencing/>

C Wednesdays: 7:00 – 9:00 EST The Friends of The Aboriginal Moabite Nation Call
By telephone only: 1-712-432-0900 PIN 666238#
Replay# [good for 1 wk] 1-712-432-0990 PIN 66238#

D Every 2nd Wednesday The Abundance Call - Caroline Oceana Ryan
5:45 PM Pacific / 8:45 PM Eastern 60-minute conference call with the Collective,
a group of Angelic and Galactic beings, channeled by

To be notified: email AscensionTimes@gmail.com with the message "YES to Abundance!"

III OPENING MEDITATION; HOUSEKEEPING; ACCESS TO PODCAST; MAYAN CALENDAR

A. Opening Meditation: Rainbird – Prayer to the 7 Sacred Directions

B. Mayan Calendar: Rainbird

- **Go to <https://www.spacestationplaza.com>** – to locate specific days & lots more information: on the home page, you can find out what your Mayan signature is; while there, look and see where the wave began: that is the birth wave
- **to learn about the Mayan Calendar, Go to <https://www.spacestationplaza.com>** which will link you further to www.lawoftime.org website for further information.

9th Fri – 12 MANIK – Blue Crystal Hand- also the New Moon – 9:17 EDT – healing aspect –
healing self and others; creating contentment and peace – let go of distractions,
procrastination [refers to the Blue Crystal Deer as well]

10th Sat - 13 Lamat - Yellow Cosmic Star – a promise of change, transcendence
the star energy is profound

11th Sun – 1 Muluc – Red Magnetic Moon – Artist aspect - new wave of Muluc– guidance
is purification – which leads us close to the Day Out of Time -
use our telepathy as Universal mind is our mind!

12th Mon – 2 Oc – White Lunar Dog – PORTAL DAY – Artist Aspect multi-dimensionality
comes with the Portal - gift is awareness of destiny and past lives; embrace the loyalty to
human kind; let go of fears and unwise use of anger

13th Tues – 3 Chuen – Blue Electric Monkey – PORTAL DAY – Artist Aspect
the work is balancing work and play, paying attention to clarity of mind; taking advantage
of wise use of magical artistry; also gifts of humour, spontaneity – no resistance to
compassion

14th Wed – 4 Eb – Yellow Self-existing Human – Healing Aspect - enlightenment of human
kind, activating cosmic consciousness; gift of being human servant warrior, having contact
with other dimension – let go of dependence on analytical mind – depend on spirit

15th Thur – 5 Ben – Red Overtone Skywalker - Warrior aspect – working on focus, striving on
self-illumination, striving towards clarity; gift of bending dimensions –

16th Fri – 6 Ix – White Rhythmic Wizard – Visionary Aspect - about our illumination for
others, clarity of mind and purpose; embrace the gifts of the Shaman/Jaquar medicine –
integrity, being in accordance with Divine will

www.Spacestationplaza.co Click on the tzolkein – it's on page 2 of the link.
For even more information, SEE ALSO [the Law of Time.org](http://theLawofTime.org)

This is not a 3rd dimensional calendar -

C. Housekeeping: Rain Bird

- Asking to **have more people contribute**, as some of the regular, long-term donors are stressed and stretched: **any and all small amounts are helpful and very welcome.**

BBS: 804-220-6484 PEOPLE CAN NOW PHONE IN TO LISTEN TO THE CALLS!!

- Listener-supported radio programs; program archives can be accessed
- The radio program costs \$300 per week. **Need \$300 for this week - all caught up . . . Thank you, thank you, thank you ! . .**
- Go to BBSradio.com/Station2; find the listing for **Friday Hard News Call & Paypal** button
- BBS appreciates getting checks via the mail: no Paypal fees!
- The mailing address for those who do not like paying electronically:

B B S RADIO

1500 Pleasant Hill RD
Lafayette, CA 94549

[Please put "Attention Don" on the envelope]
[Note inside that it's for T & R calls
& the Thursday call, as well]

- **BBS archives can be accessed by everyone;** there are archives on www.rainbowroundtable.net All are free to access.

T & R: Their full-time, life-time commitment is to be tuned in to what is really going on behind the artificial world we see around us. They don't ask for anything but they do require food, a home, gas for the car, and access to BBS Radio in order to compile and distribute this information to the world.

- Donations via Paypal button on the **homepage** www.rainbowroundtable.net

FOOD MONEY: VIA PAYPAL OR See the PAGE ON www.rainbowroundtable.net
Rama has a pride of 9 Paschats + 2 inside kitties + 2 HUMANS = 13 in total

BASICS: Food for Paschats, the car, T & R - \$200 – FOR THIS WEEK
BILLS: \$400

- **Please notify T & R when sending something:** koran9999@comcast.net
EVERY \$5 HELPS - ALL GRATEFULLY RECEIVED
PLEASE MAKE AN ATTEMPT TO DONATE THIS MONTH

- **Rama's mailing address** for cheques, money orders: Ram D Berkowitz
PO Box 280
Santa Cruz, NM 87567

- **Remember you can book a session with Mother, as well!**

**** [www.rainbowroundtable.net /page/donate](http://www.rainbowroundtable.net/page/donate) ****

- Your donation supports an account set up for Tara & Rama with **Beneficial Farms Community Supported Agriculture in Santa Fe, NM**
- They continue to appreciate each & every donation received for food.

- Please continue to go to www.rainbowroundtable.net and link to their Paypal account: click on the word CHANGE; choose **family and friends option so Paypal takes off no fees.**

FREEMART: Rama and Tara are being helped by this account: they get their supplements there. **The returns also help www.rainbowroundtable.net**

<https://www.shopfreemart.com/tarram> a/c # 7000

- all the products have much to offer, so take a look!
- Freemart is a private shoppers club; it's **FREE TO JOIN.**

Also, check out the heading called **READ MORE** for the good information it has

D. Access to this week's Podcast

<https://bbsradio.com/podcast/hard-news-friday-july-9-2021>

NOTE AGAIN: dial 1-804-220-6484 to listen to BBS Radio TV Station 2.

HARD NEWS: Rama, Tara [R,T]

Greetings to all!

R: What's rapidly unfolding: the twilight time of the old energies, of the old gods

- they have had their time in the sun; old patriarchy is quakin' and shakin' – has to do with the transfiguration of us and our sun. A wild tale – like **Star Wars** and **Close Encounters**:
- It's about us meeting ourselves, and this is taking place at the moment – so many galactic civilizations showing up – and the falling matrix is falling more and more!

- **Talked to the Poppy Lady and Fing Del Noor**, her Sasquatch co-pilot: around 85% of the districts are in the hands of Taliban – things done dirt cheap – Afghanistan has rare minerals like lithium – and also stargates

- the real reason for entering Afghanistan was the stargates, not Osama bin Laden – this is the giant story of Stargate SG! Things that have been seen in Syria, Iraq, Afghanistan relate directly to the old story; this story is bigger than he knows how to discuss as it goes into the large galactic story: involves 27 galaxies for starters [never mind the timeline!]

- When we have a small group of folks – like Agent Smith and the Architect in **The Matrix**, and the minions who are also part of the story – at a point, there is a single point reached, a singularity, and we are entering that point right now. The X Class flares and other things are making people a little crazy and as we go into the timelessness – as he was told today: go into that timelessness, and we will hear the voice of The Force

- There are many different Star craft that are here [the Pleiadians, Syrians, Arcturians, Andromedans - spherical shaped; star shaped; some pulsate with light & have no form they just pulsate – almost like a strobe light – doesn't know where they are from]

- The ships have been called by Sol the sun which is going into a higher octave – this affects our whole solar system and affects us all

- the different factions of the 13 families are in their final moves

- believe in the magic; do not take our word for ourselves – feel it out for ourselves – can feel it

AUDIO: Death Watch in Afghanistan – Abby Martin
<https://www.youtube.com/watch?v=cgFVqxc0DKw>

THIS IS NOT EASY LISTENING . . .

CONFERENCE CALL

Caller: feels that THIS IS THE END

R: YES

Caller: this is the end of the world as I know it, and I feel fine . . .

RGM: played this beginning of *The Doors: This is the end* . . .

Issues around sound – Rama: they are coming through the computer, not the phone

Ca/Ph: in Stanton, VA – a hospital that should be destroyed – DeJarnes hospital in Va – says the man after whom it was named was the proposer of Eugenics

Pe: give an overview of an article:

[SEE BELOW FOR ARTICLE, READER COMMENTS](#)

2021-07-09 (2021-02-22) **Synthetic mRNA Covid vaccines: A Risk-Benefit Analysis**

With a “vaccine” based on untested technology, and safety trials still ongoing, is it safe to take the shot? And does it even work? And does a disease with an IFR of 0.2% even justify that risk?

T: and the US debt is outrageous

- as people look at Sleepy Joe who took orders from Cardinal Egan back in 9/11 - what's he trying to do now is cover everything up – via the Clintons!

Ca/CA: what about assassination of the Haitian pres – keeping Haiti destabilized

- saying the commandos were caught: 2 were Haitian Americans, rest Colombians

RGM: latest word is that the Haitian pres did not want to vaccinate the people

T: why the Clintons got rid of him

RGM: found a grainy video – a DAA

T: RT said is was not true – and T very much doubts it – R heard from his people that is it was the Clinton Fdn behind events

• **Abby Martin texted R yesterday** –

- about a Palestinian family made homeless
- ALSO: Two Big foot shoes are about to drop! the 13 families did it

VA: note from Dr G who said one website was trying to down play the number of hits – 84,000 hits on the first day; the next days there were no hits!

- Dr Greer called what has happened 'shadowing' . . .

RGM: the Pentagon said 'no' to both Microsoft and Amazon about storing Pentagon data on their servers! ! !

T: does Google have the muscle to bounce them off?
RGM: It's MICROSOFT AND AMAZON – GATES AND BEZOS
Ca/CA: both of them tried before and the Pentagon said NO
T: means there are no more places to hide out any more

Ca/CA: a bit coin billionaire has just died too – no one can find his money! This guy dies a couple of weeks ago

- Just like John McAfee - [his bit coin also disappeared?]

T: doesn't this Abby report equal a big deal?

R: these are the war crimes going on

- and Anthony Blinken, Sec of State, is looking the other way – Sec of State The DVA

Pe: About Julian Assange

SEE ARTICLE BELOW

2021-07-08 **Assange Extradition: British High Court Grants US A Limited Appeal**

https://www.oom2.com/t76118-assange-extradition-british-high-court-grants-us-a-limited-appeal?utm_campaign=Feed%3A+oom2%2Fvxb+%28Out+Of+Mind%29&utm_medium=email&utm_source=feedburner

R: Ms Maxwell and lawyers trying for same deal as Cosby and get house arrest – if that happens, her jaws will start flapping and all will go down

T: and Joe has an island beside Epstein

Ca: and Joe says the island belongs to his brother . . .

- Zero Hedge.com – a Romanian billionaire - Mircea Popescu – an outspoken figure & a bit coin billionaire died – drowned off the coast of Costa Rica – his mistresses say he's gone, others say he faked it all
 - when you say the value of bit coin, it's tied to the dollar

T: that's not true – some banks do that

CA: he's is considered to have \$2 Billion worth of bit coin – evaluating it against the dollar

- the founder of bit coin – people can't say if this is a real person or not - if it isn't a real person, what does that mean?
- With the central banking system, they lie to you
- with the crypto . . .

RB: if the Dollar is worth nothing, then the bit coin is worth nothing

T: at the moment, everything is worthless

CA: Now we have another malware ransom going on – who are those doing ransom?

- They did it to multiple companies not just one – made just as the billionaires had their annual meeting in Idaho – seems too coincidental

R: lots of things lining up!

T: and all the fake programs – like dinars, dongs and zimbabwes -

Pe: question re Maxwell and keeping her in jail – Does her getting house arrest mean she would be free to tell all? Which is why she might be kept in jail?

T: a hologram – and she's head of the Deep State

Rahm Emmanuel – former mayor of Chicago – head of Moussad in the US

CA: what led to Netanyahu's falling out of favour? ? ? Is this a charade? The person who replaced him

T: the next guy now has the power – Mr Benett – now head of Khazarian Mobsters!

CA: how does this tie in to the NYSD case against Trump?

R, T: money laundering; ill gotten gifts;

- the news agencies bring up Qanon and they **don't bring up** other things going on about the Space Program -
- the good guys are here and they know it – as the Vatican goes down, all the religions disappear
- in SW New Mexico all the stories about giant people – 1/2 god, 1/2 people are coming out, as well as the technologies - there are too many pieces linking up with Annunaki

• Richard Branson – Virgin Airlines – has created a 'space port' in SW New Mexico underneath White Sands missile range – miles and miles of underground tunnels that go across the US

• Yes, he will take off from his 'space port'

• where does Elon Musk take off from?

R: not sure where take off location is – maybe California

CA: about the Vatican – seems the Pope had an op and removed most of colon ? ? ?

R: he's some kind of clone -

T: they don't know how to handle the new energies

CA: any recommendation about how to pass around Greer's movie -

Do: The Greer movie is on You Tube! ! !

Jim from AZ – to be put on the list! ! !

Bi from AZ: to R – to set up the volume on the computer so he can talk over the computer

Pa: commenting very positively on Thursday call guest – Rebecca Hardcastle Wright

CA: every time he hears about the shortage of silicaon chips – lots of stealing going on

RGM: yes

[The Ascended Masters Broadcasts](#)

Sanat Kumara – July 9th 2021: [Listen/download](#)

<https://instantteleseminar.com/Events/126985791>

MOTHER / ALCYONE

[M/A]

• • •

Greetings in the Light of the Most Radiant One! In the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame.

Greetings, Children of Ra!

Indeed, NOW is the time – like we just heard. The Lord of this story – Ancient, Eternal and Supreme of Days said “Call on me; I’ll show up” and She’ll show up too. All the folks are here - it’s about this big story now

- We asked for them to show up; here is the time and the place; it is NOW – everything that is unfolding in a good way has to do with this time we’re in that this Master spoke of.
 - Not every day we get to hear the one that sits before the Throne with the Seraphim – it’s a big deal! Cos it is about this moment here
 - As we keep telling this one [R], the other shoe is gonna drop; it’s happening – we may not understand, innerstand, overstand – yet it is about Them as They are the key, as what is in Them is called the gold dust within our DNA: Soma
- there are many events unfolding right now about how we’re stepping into this story and, yes, We are here with Our legions upon legions of folks that Lord Michael has asked Us to show up [with] now. As Beloved Ascended Master Sanat Kumara said: “This is the time; this is the place. Expect us.”
 - **Not a joke! It’s real!**

T: We have snuck around the block one time too many – time to face forward; take the medicine

M/A: Yes. The real story about her wayward children: this cradle of civilization that has been misconstrued – the planet Nibiru; Planet X; 9th planet circling the sun – so many stories and metaphors about what’s coming –

- What’s already here as we can see: the climate disruption, the conflict – folks are on edge – a knife edge: She comes as the Great Equalizer to balance out these stories
- Let’s say, They show up with Annubis and Lady Master Ma’at, along with Ancient, Eternal and Supreme of Days, and Lady Master Venus and all the heavenly host that have a role to play in Earth’s destiny, Their destiny – it’s about love – that simple! Peace and Love!
- And what they have done – Her children, the wayward ones –

T: - in the name of the United States of America -

M/A: have turned this story into an American horror show!

- This is why She says at this time: everything is moving right along at quantum light speed –
 - What we need do is get ourselves together and that is doing the Sadna each and every day; working with the Light coming in – that changes all kinds of stuff going on with these temples that get out of whack with the touch of a feather, it seems.
- It's quite the interesting, very precarious moment we are all in – Life is so precious and, at the same time, they are leaving as fast as they are coming in
 - This is what has been talked of for many ons of times – {She addresses Tara} Lady Master, when you were here as Nostradamus, you talked of this time, that this great moment would be where there would be Unity Consciousness, and it is coming to pass.
 - The stuff that's before us – not hard – it's about loving that shadow, that deepest shadow of ourselves, and what's there to hide – we've all have our psychszoid psycho moments: it's part of what we asked to step into – this madness of the multi-verse and it's come full circle
 - there are ones who are coming forth to share the wisdom of - what we had before the flood – can happen again where there can be harmony of the spheres, peace and love throughout this local solar system and galaxy
- and believe you me, that one who just spoke before Us – the one who sits before the throne – Sanat Kumara - he ain't whistling Dixie about the fact that the time is up and that we get this completed
 - the abominations of desolation are at their end – we can see it: just heard what Sister Abby talked about -

T: Not funny

M/A: No and it is about this . .

T: no more illusions Mother . . .

M/A: acquisition of trying to hold on to that which was never meant to be held on to – the exotic minerals and gemstones – all the various kingdoms work in balance and harmony with each other – the Great Circle of Life: can't have one without the other –

- The dark ones want to break this circle and they can't because they are part of it too – they cancelled themselves out of existence: it's that simple
 - What the Hopi speak of as The Great Purification and the coming of the 6th Sun
This time is NOW.

Had better be on Her way – what she can say about present affairs: the state of our nation –
gotta get over this idea that there is only one colour; it is about the rainbow rays •
144,000 x ten hundred thousand x ten hundred thousand – it's what makes up the rain bow bridge to Asgard, bit frost:

- if you want to travel this rainbow bridge, free your soul of the old paradigms about f whatever it may have been
 - Let's say She shows up to free the planet and its people – the time is now
Greetings

T: The destiny of America is what you just said; it just got twisted around for profit of a group of oligarchs

M/A: a small group of life forms who hid their true natures from the people of earth and saying one thing, and doing another – She'll call it like it is: Rape is rape

T: there's only one way – the kitty that thinks there's more than one way to do something . . .

M/A: pushing the buttons

T: Thinks is not a good idea to go in there - the Pashats are live and livng!

M/A: They are indeed

T: I guess the world is as ready as it's gonna be for the accountability piece

M/A: accountability is at hand – it may seem that what we're seeing on the main stream, lame stream news is moving at a snail's pace but it is moving every fast – there are tremendous changes coming; all of it is good.

- **There will be no gestapo showing up at gunpoint** to make us take that jab – that is about the propaganda where they would like to play with the gestapo deck and may be doing it on some areas of the planet
- Yet **let the chips fall where they may: Expect Us:** we like Macho Latte – hot!

Both: Greetings in the Light of the Most Radiant One. Kadoish, Kadoish, Kadoish, Adonai, Adonai, Adonai Sabeoth

M/A: Remember – who we are – you will remember when we show up at the door . . . better be ready! . . .

Rama Returns:

Was on LM Athena's ship; there was a lot of hustling and bustling about – moving cargo, all kinds of containers and stuff – to the surface. Keeps hearing the words "expect us"

T: have to watch the kitties; think they are master computer technicians – rambunctious paschats

Cornel West: What It Means to Be Human

<https://www.youtube.com/watch?v=Aekb3ppKm5w>

This talk is an edited for Free Speech TV version of the Collins Distinguished Speakers' Lecture given April 26, 2019 at the University of Oregon titled "Race Matters...A Timely Discussion on the Fabric of America. "

The increase of racist incidents in Baltimore, Ferguson, Charlottesville and nationwide, alongside movements such as Black Lives Matter and Standing Rock, has made the need for conversations on race in the United States today one of continued urgency.

Dr. Cornel West published the book 'Race Matters' in 1993 following the Los Angeles riots, which examined the crisis of black leadership in the United States. "We need to take a critical look at 'We the People' through the lens of these complicated issues and make connections about the deep questions of quality of life in this country," he said.

Cornel West is currently Professor of the Practice of Public Philosophy at Harvard University, with a joint appointment in the Harvard Divinity School and the Department of African and African American Studies.

He is an ardent political activist, a keen social critic, and a prolific writer. Author of 20 books, his publications include Race Matters (1993); The Future of the Race (1996), written with Dr. Henry Louis Gates, Jr.; and The Rich and the Rest of Us: A Poverty Manifesto (2014), written with Tavis Smiley. Thanks to the Collins Fund Camera by Pirate TV contributor, Todd Boyle

INFORMATION RELATED TO THE NOTES

2021-07-09 (2021-02-22) **Synthetic mRNA Covid vaccines: A Risk-Benefit Analysis**

With a “vaccine” based on untested technology, and safety trials still ongoing, is it safe to take the shot? And does it even work? And does a disease with an IFR of 0.2% even justify that risk?

Sadaf Gilani

<https://off-guardian.org/2021/02/22/synthetic-mrna-covid-vaccines-a-risk-benefit-analysis/?fbclid=IwAR0nuNkICyqdAXYdIIo5fIW-7OJI6otiLvD1bfh5uwWhyy8KVuD0DGaXQn8>

Amidst the plethora of Covid-related issues, the Covid injections are the most imminent. Two formulations have received interim approval from the FDA, and Health Canada: Pfizer/BioNtech and Moderna.

Both these injections are employing the same technology, synthetic gene therapy (SGT), which is being dispensed to the populace for the first time in human history.

Medications are given to sick people to treat disease. Vaccines are given to healthy people to prevent an infection. Therefore consideration of risk-benefit analysis is paramount.

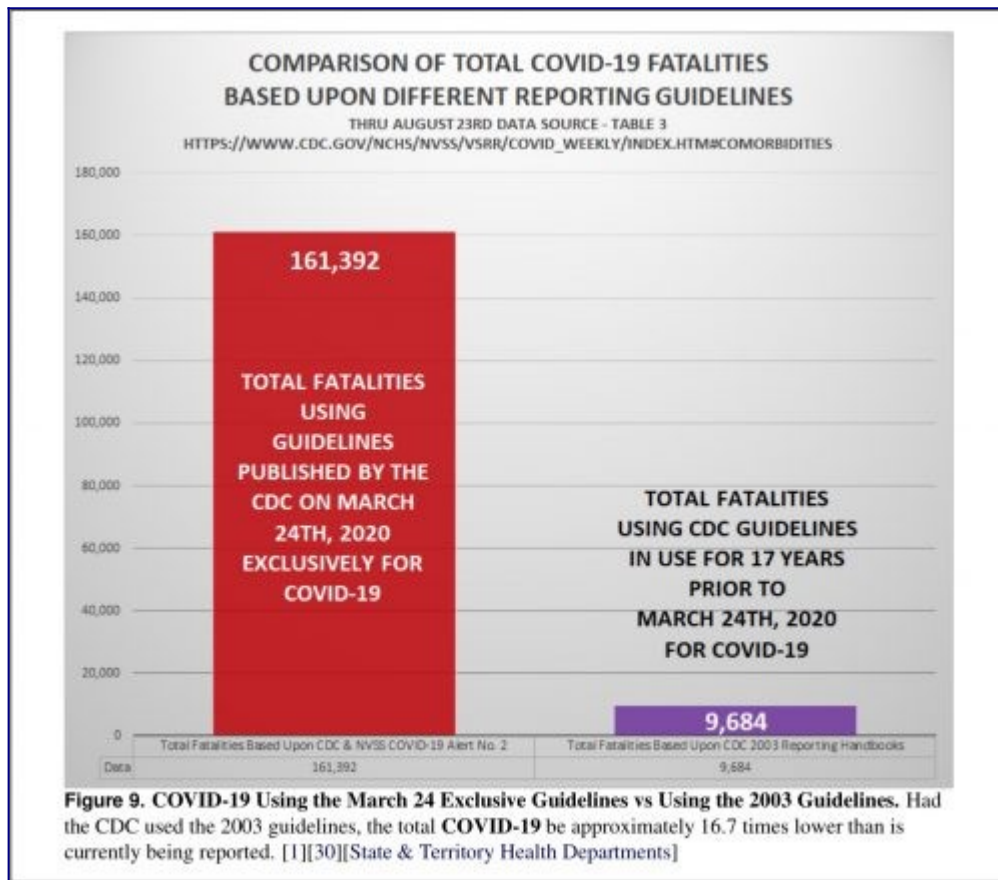

Covid is the umbrella label for PCR “positive” people regardless of clinical presentation. Most are “asymptomatic,” some have generic cold/flu symptoms, and a few present with moderate or severe respiratory distress. Unfortunately, the PCR assays being used for diagnosis, [are not fit for purpose](#). Most PCR assays are constructed based on the German Drosten et al. protocol.

On November 27th 2020, [22 scientists submitted a request for retraction](#) of this protocol which was published in the journal Eurosurveillance, citing a number of fatal design flaws.

It is also [important to note, despite SarsCov2 virus and the syndrome labelled as Covid being used interchangeably, causation has not been proven as per Koch’s postulates.](#)

The first metric which every medical doctor must convey to a person is how deadly Covid actually is. This is context for the legal and ethical practice of informed consent.

[Incidentally, all Covid death stats are inflated: under direction of the WHO, deaths ‘from’ and incidentally ‘with’ Covid are not distinguished.](#) Death coding has changed compared to Influenza/Pneumonia. According to [one published analysis](#), this has resulted in over 16 times inflation of death stats, as supported by CDC data.

Furthermore, Infection Fatality Rate (IFR) stats based on seroprevalence antibody studies are also inflated [since T-cell immunity, is not measured in these studies](#). This may result in a 3-5X lower IFR for Covid. Regardless, the general IFR is on order of the seasonal influenza, [approx. 0.2%](#).

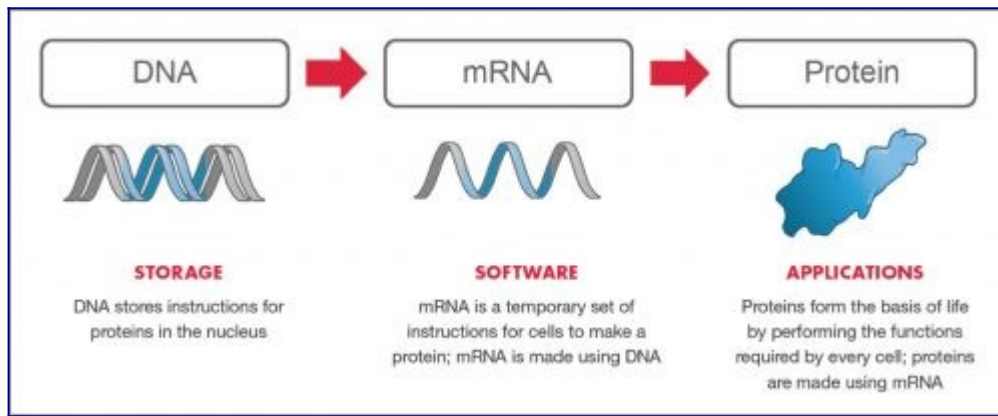

Covid [mortality is a reflection of increased mortality with age](#), more so than influenza/pneumonia of previous years. The median age of Covid deaths (86) exceeds average life expectancy in Canada. Tragically, 70% of the deaths in the province of Ontario took place in care homes. The mortality rate from Covid in Canada under 59 years of age is 0.0017%.

According to the CDC, the [survival from Covid \(with inflated stats\) is as follows](#): (under 20) 99.997%, (29-49) 99.98%, (50-69) 99.5% and (over 70), 94.6%.

The Covid synthetic gene therapy injections employ synthetic, thermostable nucleotide sequences which are wrapped in a PEG (polyethylene glycol)-lipid nanoparticles to protect from destruction in the bloodstream and facilitate entry into the cells. The claim is that the cellular machinery will engage with these synthetic sequences and produce segments which code for the SarsCov2 S1 spike protein. It is believed that the immune system will mount a sufficient antibody response.

Dr David Martin emphasized that this technology does not meet the definition of a traditional vaccine as per the manufacturers' claims. [The trials do not test for reduction in transmission. These therapies do not prevent infection, merely reduction in one or more symptoms.](#)

Interestingly, Moderna [describes its technology as the "software of life," not a vaccine.](#)

Media outlets, politicians, and public health officials have blared the 95% efficacy for both formulations. To the casual observer, this would denote 95% reduction in hospitalizations or deaths. When in fact the 95% is calculated, based upon the "Primary Efficacy Endpoints."

In the trial literature these endpoints are described by both companies as non-severe cold/flu SYMPTOMS coupled with a positive PCR.

Pfizer [has reported](#):

For the primary efficacy endpoint, the case definition for a confirmed COVID-19 case was the presence of at least one of the following symptoms and a positive SARS-CoV-2 NAAT within 4 days of the symptomatic period: Fever; New or increased cough; New or increased shortness of breath; Chills; New or increased muscle pain; New loss of taste or smell; Sore throat; Diarrhea; Vomiting."

Moderna [reported in likeness](#):

For the primary efficacy endpoint, the case definition for a confirmed COVID-19 case was defined as: At least **TWO** of the following systemic symptoms: Fever ($\geq 38^{\circ}\text{C}$), chills, myalgia, headache, sore throat, new olfactory and taste disorder(s), **OR** At least **ONE** of the following respiratory signs/ symptoms: cough, shortness of breath or difficulty breathing, **OR** clinical or radiographical evidence of pneumonia; and NP swab, nasal swab, or saliva sample (or respiratory sample, if hospitalized) positive for SARS-CoV-2 by RT-PCR."

To reiterate, in both trials, once one/two symptoms appeared in a participant, it was designated a "case" or "event" when coupled with a positive PCR "test". Once 170 "cases" occurred in Pfizer/BioNtech trial, and 196 "cases" occurred in Moderna trial, this data was used to calculate efficacy. Shockingly, only under 200 cases for a novel therapy which is being deployed/subjected on millions of people around the world.

Furthermore, people are not being informed that "95%" or so efficacy, is calculated based on a useless metric of relative efficacy and is therefore very misleading.

Eg. Pfizer/BioNtech:

8 "cases" in vaccine group
162 "cases" in placebo group

8/162 = 5%
 100%-5%= 95%

Therefore, they are claiming that the synthetic gene therapy injections are 95% efficacious. What they are not factoring in is the size of the denominator. If it is large, then with 8 vs 162, the difference becomes less significant. It matters how many people were in each group, for example, whether this be 200, 2,000, or 20,000.

This is the absolute risk reduction for Pfizer/BioNtech, each group had over 18,000 people!

Injection Group: 8/18,198 = 0.04%

Placebo Group: 162/18,325= 0.88%

Therefore, the absolute risk reduction for Primary Efficacy Endpoint is 0.84%. (ie. 0.88-0.04)

This means, that someone who takes the Pfizer/BioNtech injection, has less than 1% chance of reducing at least one symptom of non-severe "Covid" for a period of 2 months. This means that someone who takes this injection has over 99% chance that it won't work, regarding the efficacy.

Over 100 people have to be injected for it to "work" in one person.

	Pfizer/BioNtech Placebo Group	Pfizer/BioNtech Injection Group	Absolute risk reduction
Non-severe "Covid"	0.88%	0.044%	0.84%
Severe "Covid"	0.04%	0.005%	0.035%

The actual efficacy of Pfizer/BioNtech Synthetic Gene Therapy

	Moderna Placebo Group	Moderna Injec- tion Group	Absolute risk reduction
Non-severe "Covid"	1.33%	0.08%	1.25%
Severe "Covid"	0.22%	0%	0.22%

The actual efficacy of Moderna Synthetic Gene Therapy

There are many issues with the trial data, and design. It must be noted that PCR tests are not fit for purpose and without Sanger sequencing we have no idea how many of these people actually had "Covid" vs another respiratory virus or something else. This is a preeminent reason why Dr Yeadon and Dr Wodarg filed a Stay of Action on the vaccine trials.

As Dr Peter Doshi, Associate Editor of BMJ highlighted, access to the raw data is required to further elucidate the areas of concern:

With 20 times more suspected covid-19 than confirmed covid-19, and trials not designed to assess whether the vaccines can interrupt viral transmission, an analysis of

severe disease irrespective of etiologic agent—namely, rates of hospitalizations, ICU cases, and deaths amongst trial participants—seems warranted, and is the only way to assess the vaccines' real ability to take the edge off the pandemic."

Approximately 5-6 symptoms listed as "side effects" are the same as Covid symptoms. Pfizer/BioNtech only started counting "cases" one week after the second dose, and Moderna, 2 weeks after the second dose. Therefore, if these side effects were labelled as "Covid" symptoms instead, even the paltry efficacy of about 1% would be relegated into the negative integers.

In others words, the injected group may have been sicker with "Covid" more than the placebo group.

There have been many critiques of the applicability of the limited data to the general populace, especially the vulnerable elderly. An important analysis of this was done [by Dr James Lyons-Weiler](#) who discovered the general population is dying at a rate 6.3 times the rate of participants in the Moderna trial (including placebo and injection groups).

If Moderna's on-vaccine death rate is so far below the national death rate and also simultaneously more than five times greater than Pfizer's on-vaccine death rate, then Pfizer's study sample appears even less representative of the entire population. This, too, requires due consideration."

An integral question as to whether Pfizer/BioNtech and Moderna recruited supermen and women for their trials, comes to mind. The incidence of "severe" Covid in Placebo groups which scrutinizing the details, wasn't necessarily severe presentation, is so low that trials of 30,000-40,000 lacked statistical power to determine reductions in hospitalizations and deaths, according to Tal Zaks, CMO Moderna.

Zaks is correct, the incidence of severe "Covid" was only 0.04% in Pfizer/BioNtech and 0.22% in Moderna. Due to this very low attack rate of severe presentation in the population, the absolute risk reduction in severe presentation, even taking data at face value, is nominal.

Therefore, potential SGT recipients must be informed that to reduce "severe" presentation, chances are over 99.5% that these synthetic gene therapies will not work.

The British Medical Journal [has reported](#):

Hospital admissions and deaths from covid-19 are simply too uncommon in the population being studied for an effective vaccine to demonstrate statistically significant differences in a trial of 30 000 people. **The same is true of its ability to save lives or prevent transmission: the trials are not designed to find out."**

To convey informed consent, the side effect profile must also be considered. Up to 80% of injected trial recipients experienced side effects, in a setting for a nebulous syndrome where 80% of people are asymptomatic.

The incidences of immediate side effects in both trials were significant and dwarfed the absolute risk reduction in both the primary efficacy endpoints, as well as for "severe" Covid.

For example, for Moderna 81.9% experienced any systemic reaction. Grade 3 reactions (considered severe) were experienced by 17.4%. This is 79X more likely than the incidence of severe Covid in the Moderna group. ($17.4/.22=79X$) Based on [preliminary reports of adverse events](#) [emphasis added]:

This is an injury rate of 1 in every 40 jabs. This means that **the 150 shots necessary to avert one mild case of COVID will cause serious injury to at least three people.**"

The safety data for both companies is approximately only two months before receiving emergency use authorization status. Therefore, there is no data for mid-long term side effects, as the trials are ongoing.

The estimated completion date for [Pfizer/BioNtech trials is Jan 31, 2023](#). The estimate completion date for Moderna [trials is October 27, 2022](#).

According to the data, and [elaborated by Tal Zaks \(CMO of Moderna\)](#) **the trials are not designed to demonstrate a reduction in transmission, due to "operational realities". It is therefore baffling how medical doctors and public health officials are proclaiming these SGTs will promote herd immunity.**

The manufacturers have also made it clear that efficacy beyond 2 months or so is unknown. Therefore, the 1% absolute risk reduction in mild/moderate, cold/flu symptoms **may not last more than a few months.**

Tragically, there is no pervasive data-centred discourse, only excessive fear-mongering. Without addressing the data, people cannot make an informed choice about experimental SGTs.

Many are not aware any SGT recipient who participates in this therapy is now a part of an unprecedented experiment. When Health Canada shockingly agreed to interim authorization of the Pfizer/BioNtech injection, [it came alongside a caveat](#): The company must submit 6 months of trial data [when it is available](#).

To underscore: Health Canada approved this experimental SGT on the populace without even 6 months of trial data.

It is difficult to embark on a comprehensive risk-benefit analysis, as there is no safety data beyond a couple of months. New vaccines typically take about 7 to 20 years of research and trials before going to market. Pfizer/Moderna ran all of their trials simultaneously, including their animal trials, instead of sequentially. As retired Health Canada [research scientist Dr Qureshi elaborated](#), it is during proper animal trials that meaningful toxicology data is obtained.

The anaphylactic reactions observed in some people is also worrisome, worthy of analysis. Children's Health Defense submitted a request to the FDA to address PEG allergies, as up to 70% of the populace has antibodies to these compounds. *PEG has [never been a component in a vaccine before](#).*

It must also be noted that according to an internal Health Human Services and Harvard study, [less than 1% of vaccine side effects are reported](#). At this juncture, based on: paltry efficacy, issues with data transparency and trial design, high level of immediate side effects, and low IFR for Covid, there is already enough reason for concern.

Yet, the more disconcerting side effects are the potential mid-long term effects.

Many doctors and researchers around the world have promulgated concerns about the well-documented phenomena referred to as [Antibody Dependent Enhancement](#) (ADE) seen in some viruses such as coronaviruses.

In previous SARS, MERS, Dengue fever and RSV virus vaccine trials the exposure of wild viruses to vaccine recipients resulted in severe disease, cytokine storms, and deaths in some animal and human trials. **The phenomenon of ADE did not present initially in vaccine recipients, rather it presented after vaccine recipients were exposed to wild viruses.**

This is the reason [we do not have a vaccine for the common cold, MERS and SARS](#) which is 78% homologous with SarsCov2 (based on analysis of the digital genome). [Immunology Professor Dolores Cahill warned](#) that this disease enhancement may cause many vaccine recipients to die months or years down the road. Esteemed German infectious disease specialist, [Dr Sucharit Bhakdi opined](#):

“This vaccine will lead you to your doom.”

Researchers in [The International Journal of Clinical Practice](#) stated:

The absence of ADE evidence in COVID-19 vaccine data so far does not absolve investigators from disclosing the risk of enhanced disease to vaccine trial participants, and it remains a realistic, non-theoretical risk to the subjects. Unfortunately, [no vaccines for any of the known human CoVs have been licensed](#), although several potential SARS-CoV and MERS-CoV vaccines have advanced into human clinical trials for years, suggesting the development of effective vaccines against human CoVs has always been challenging.”

Traditional vaccines involve injection of the pathogen/toxin in whole/part to elicit an immune reaction. For the first time in history, **the recipients’ cells will manufacture the pathogen**, the S1 spike protein of SarsCov2 virus.

In a [presentation for Emergency Use Authorization to the FDA](#), Moderna reps explained that the mRNA stays in the cytoplasm of the cells, manufactures the S1 Spike Protein and then is destroyed. **As Dr Sucharit Bhakdi and others have queried:**

“Where else do these packages go?”

Also, based on a couple of months of safety data, we do not know that these mRNAs last long enough to manufacture the protein but not long enough to exert deleterious effects. This nascent technology is risky.

Firstly, the RNA sequences are synthetic. Therefore, we do not know how long they will last in the cells. **Dr Judy Mikovits has expressed concerns in that they may not be degraded immediately, and perhaps linger for days, months, years.**

Moderna previously [tried to use this same technology to treat Crigler-Najjar syndrome](#) and was not able to strike the balance between therapeutic dose and toxic side effects.

It’s [encased in nanolipid](#) to prevent it from degrading too rapidly, but what happens if the mRNA degrades too slowly, or not at all? **What happens when you turn your body into a “viral protein factory”, thus keeping antibody production activated on a continual basis with no ability to shut down?**

So, taking a synthetic messenger RNA and making it thermostable — making it not break down — [is problematic]. We have lots of enzymes (RNAses and DNAses) that degrade free RNA and DNA because, again, those are danger signals to your immune system. They literally drive inflammatory diseases.

Moderna boldly claims that these synthetic mRNAs will not integrate with the host cell DNA. The discovery of epigenetics has revealed that DNA expression is in flux and constantly interacts with environmental signals. [Dr Lanka explained that RNA-DNA](#) is also a two-way process, dynamic.

There is the potential for this synthetic RNA to integrate into human DNA via the enzyme, reverse transcriptase. This may lead to mutagenesis, possibly cancer. It may lead to birth defects if it integrates into the germ cells of the injected. Reassurances cannot be made based on such limited safety data.

Therefore, **it is important to clearly understand the potential risks of this type of mRNA-based vaccine, which include** local and systemic inflammatory responses, the biodistribution and persistence of the induced immunogen expression, possible development of autoreactive antibodies and toxic effects of any non-native nucleotides and delivery system component”

It has been discovered that [commonly transcribed mRNA sequences can integrate with DNA for form “R loop” patterns](#). Dysregulation of these sequences is implicated in different pathologies, including “*oncogenic stress*.”

This finding was referred to as:

unexpected interplay between RNA modifications (the epitranscriptome) and the maintenance of genome integrity.”

Clearly, we are in the nascent stages of understanding the complex field of epigenetics. The S1 SarsCov2 spike protein is highly homologous with HERV (human endogenous retrovirus) protein known as Syncytin-1. **There is the potential for autoimmunity, as the Spike protein antibodies might attack Syncytin-1.**

Whilst natural infections are benign and self-limiting for the vast majority of affected people, autoimmune diseases are mostly irreversible. This is even more terrifying with the mRNA treatment.

If the translation of SarsCov2 S1 spike protein persists, there is potential to [cause amplification of the expression of autoimmunity](#). As the SGT recipients’ cells are now producing the viral spike proteins, there is the potential for explosion of auto-immune diseases in coming years.

Syncytin-1’s primary function is in the placenta as well as sperm. [Dr Wodarg and Yeadon’s Stay of Action](#), included concerns that the potential for antibodies against Syncytin-1 proteins (part of the placenta) may result in permanent infertility in women and possibly men as well. The manufacturers [give the caveat](#):

It is unknown whether COVID-19 mRNA Vaccine BNT162b2 has an impact on fertility. And women of childbearing age are advised to avoid pregnancy for at least two months after their second dose.”

Pregnant women were not included in either of the trials. Trial recipients were instructed to use birth control.

The PEG-lipid nanoparticle is highly lipophilic, to cross cell membranes. Renowned aluminum and neurotoxicity expert Dr Chris Shaw, [stated that these nanoparticles do cross the BBB](#) (blood-brain barrier) and cited evidence from Moderna’s previous animal trials.

On social media, there have been many documented cases of bizarre neurologic symptoms in the SGT recipients. Could one mechanism be [dysregulation of Syncytin-1 in the brain](#)?

Except for the normal physiologic function of Syncytin-1 in the development of placenta, the activity and expression of Syncytin-1 increase in several diseases, such as neuropsychiatric disorders, autoimmune diseases, and cancer [...] Syncytin-1 participates in human placental morphogenesis and can activate a pro-inflammatory and autoimmune cascade [...] **A growing number of studies indicate that Syncytin-1 plays an important role in MS."**

Bottom line: elevated levels of Syncytin-1 = brain inflammation.

We now have a therapy that uses the body's own cells to produce unknown (perhaps continuous) levels of a protein that is almost identical to Syncytin-1. This is potential for disaster, [as Dr Mikovits elaborated](#):

Syncytin is the endogenous gammaretrovirus envelope that's encoded in the human genome...We know that if syncytin...is expressed aberrantly in the body, for instance in the brain, which these lipid nanoparticles will go into, then you've got multiple sclerosis [...] The expression of that gene alone enrages microglia, literally inflames and dysregulates the communication between the brain microglia, which are critical for clearing toxins and pathogens in the brain and the communication with astrocytes that dysregulates not only the immune system but the endocannabinoid system..."

In the longer term, she suspects we'll see a significant uptick in migraines, tics, Parkinson's disease, microvascular disorders, different cancers, including prostate cancer, severe pain syndromes like fibromyalgia and rheumatoid arthritis, bladder problems, kidney disease, psychosis, neurodegenerative diseases such as Lou Gehrig's disease (ALS) and sleep disorders, including narcolepsy. In young children, autism-like symptoms are likely to develop as well, she thinks.

Heart attacks are another documented side effect. Loved ones of the deceased have shared on social media that these deaths are not considered vaccine reactions and are therefore not recorded as such.

Cardiothoracic surgeon and researcher, Dr Hooman Noorchashm, [wrote a letter of warning to the FDA](#). His concern, the spike protein will cause inflammation, clot formation and heart attacks in SGT recipients who previously were exposed to SarsCov2:

So if a person with a recent or active COVID-19 infection is vaccinated, the highly effective and antigen specific immune response incited by the vaccine will, very likely, attack the inner lining of the blood vessel and cause damage, leading to blood clot formation. This could result in major serious problems like strokes and heart attacks, at least in some people...Additionally, if the immunological risk I am prognosticating herein is in reality material, over the next months as millions more Americans are immunized, it will become quite visible to the public..Thromboembolic complications, 10-20 days following activation of a vaccine induced antigen specific immune response, in elderly frail vasculopaths, will not register as classical "vaccine related complications."

Moderna and Pfizer reps have boasted that spike protein will result in reduction of symptoms without presenting with clinical disease, as only a portion of SarsCov2 is being produced. Dr Whelan [expressed concern](#) that the spike protein alone is sufficient to cause injury.

I am concerned about the possibility that the new vaccines aimed at creating immunity against the SARS-CoV-2 spike protein have the potential to cause microvascular injury to the brain, heart, liver and kidneys in a way that does not currently appear to be assessed in safety trials of these potential drugs.”

There are many avenues of potential harm and death, many are unknown as this experiment is only a few months old.

In contemplation of risk-benefit analysis, one must also consider low-risk efficacious treatments. It is well established that vitamin D deficiency is linked to presentation of severe respiratory distress, and cytokine storm sequelae, which also includes Covid.

This is a small study, but well supported in scientific literature. All the risk factors for Covid are also risk factors for vitamin D deficiency. We have a pandemic of vitamin D deficiency in many temperate climates. Over two hundred scientists urged consideration of vitamin D supplementation for prevention and treatment of Covid.

As Dr Raharusun expressed optimism after conducting his study, he felt this is a solution that is pennies on the dollar. Sadly, he met with an untimely death shortly after conducting his study.

Chinese health officials have recommended a moratorium on these SGT Covid injections, after the investigations of deaths in care homes in Norway. Daily, there are a barrage of reports detailing disconcerting side effects that result in death as this great experiment on humanity unfolds.

On Feb 5th, the UK Medical Freedom Alliance penned a letter to Boris Johnson, urging him to address the post-injection vaccine deaths in care homes:

We now call for an immediate and urgent audit of deaths that have occurred since the beginning of the Covid-19 vaccine rollout, to ascertain if Covid-19 vaccines (in general or any one brand in particular) are leading to an increased number of deaths (Covid-19

and non-Covid-19 related), Covid19 cases or increased risk of death in certain age groups or cohorts.”

There are now over [900 deaths in VAERS registry](#). As per Health and Human Services’ own analysis, these are likely a small percentage of actual deaths. Both companies wish to have the trials “unblinded” so that the placebo groups can acquire synthetic gene therapies. If this happens the placebo cohort will be lost which will further obfuscate deleterious side effects.

Worldwide, over [206 million doses have been dispensed](#). Pfizer has [projected a profit of 15 billion](#) for 2021. **A very lucrative start for all companies benefitting from the Covid Industrial Complex.**

Sadly, people are not being informed that Phase 3 trials are ongoing. The FDA and Health Canada have not approved these injections for licensure. The injections are highly experimental. These SGTs were designed and “assessed” at a record speed of less than a year and then given interim approval based on 2 months of safety data.

Recently, the Indian government declined the Pfizer SGT, which prompted America’s Front Line Doctors to [call on Biden in addressing their concerns](#). Public Health Authorities are making claims about the SGTs that the manufacturers have not made.

ICAN [recently wrote a letter](#) to Cuomo urging retraction of fraudulent NY state advertisements that SGT injections are FDA approved and underwent rigorous safety trials.

Below is an example of the propaganda found in Government of Canada advertisement:

A family gathering for a meal is now tantamount to criminal behaviour.

Dr Peter Doshi, Associate Editor, BMJ [stated](#):

Products can be marketed without access to the data, but doctors and professional societies should publicly state that, without complete data transparency, they will refuse to endorse covid-19 products as being based on science."

Dr Michael Yeadon, former Vice-President of Pfizer [has also stated](#) [emphasis added]:

All vaccines against the SARS-CoV-2 virus are by definition novel. If any such vaccine is approved for use under any circumstances that are not EXPLICITLY experimental, **I believe that recipients are being misled to a criminal extent.**"

The American Frontline Doctor's [white paper reports](#),

An Experimental Vaccine Is Not Safer Than a Very Low IFR."

To exercise informed consent, any recipient of this SGT must be made aware that they are now participating in a clinical trial. There is no claim about reduction of transmission. All risk-benefit analysis must be focused on the individual, as is treatment with a drug therapy.

Therefore, the potential trial recipient must understand IFR, the absolute risk reduction in symptoms, and potential side effects, including ADE as well as efficacious alternatives for treatment if the need arises.

If the potential trial subject is not relayed this information, or does not comprehend the information, it is a blatant violation of [Nuremberg code](#).

The voluntary consent of the human subject is absolutely essential... This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision.

This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment.

There is a substantial body of experts around the world, warning about the potential disasters of this novel SGT. The sanctity of life is relegated to the proclamations of those substantiating and in command of the New Covid Religion.

The new normal breeds hysteria, "safe and effective" are the cacophonous mantras. Only a heretic dare analyze the actual data or initiate rational query. The unscrupulous message proclaimed from on high, Covid is extremely fatal, the injections are extremely safe and effective. Full stop.

Dr Vernon Coleman did not mince any words, [in his emotional plea](#):

Legally all those people giving "vaccinations" are war criminals...There is no doubt in my mind, this is global genocide."

Of course, Dr Coleman's comments were flagged as False information by Facebook.

Meanwhile, Orwellian messages such as the following abound:

Re. AstraZeneca... I came across the following, earlier today. From Robert F Kennedy Jr's site, childrenshealthdefense:

"54-year-old man dies in Delhi after taking AstraZeneca's COVID vaccine + more", at:

<https://childrenshealthdefense.org/defender/covid-19-vaccine-news>

Lysias Feb 24, 2021 2:50 PM Reply to [timfrom](#)
As the article suggests, **supplementation with Vitamin D is probably enough.**

Rhisiart Gwilym Feb 24, 2021 6:45 PM Reply to [Lysias](#)

Add two to three grams of slow-release vitamin C per day to an across-the-board all-vitamins intake and you're good to go. I've sailed through this whole lunacy in this way, including picking up the covid pathogen and seeing it off in three days with thirty grams per day of sodium ascorbate (soluble crystalline C) in water, stirred and sipped every half hour round the clock. No doctor, no hospital, nothing more than slight under-par feelings, piece of piss! And I was 79 at the time.

Jim Davidson Feb 25, 2021 7:49 PM Reply to [Rhisiart Gwilym](#)

Lots of Vitamin C may be helpful in an acute setting however do not take excess vitamin C for extended periods as this will lower your tissue copper levels. Copper is the bodies primary infection fighter.

Peter Feb 24, 2021 9:38 PM Reply to [timfrom](#)

The Astra Zeneca poison has been selected to depopulate the semi colonial world.

Penelope Feb 24, 2021 9:05 AM

It appears that there is a global phenomenon which I avoided reporting earlier cuz I still hoped the pattern would be overturned: **In care homes following covidvax campaigns one-third of the residents become ill & die within a month- AFTER they also test positive for covid.**

What I'm saying is that they don't have covid- sometimes actually are tested as negative- then are given the "vax", THEN test positive for covid & die w/in a month. This is being reported worldwide now. Here's one article about it: <https://www.globalresearch.ca/46-residents-in-spanish-nursing-home-die-after-receiving-covid-19-vaccine/5737627>

Phillis Stein Feb 26, 2021 12:52 PM Reply to [Penelope](#)
Dr Sherri Tenpenny was also saying another uptick in conditions and deaths could come at the 4-14 month stage, and that for some people, the next time they get a wild virus cold, it could kill them. There was mention of damage to the alveoli in the lungs and also the destruction of type 2 lymphocytes - **perpetual inflammation, in other words.** Your type 1 macrophages respond first to

infection; they go in and kill the pathogen, and create the natural immune response of inflammation, but then the type 2 comes in to quell the inflammation and heal the area.

So, if your type 2 macrophages are destroyed – it's like having a permanent "on" switch for inflammation, with no "off" switch. Another cheap option to take early on if you get a viral infection is L-lysine, which is a natural amino acid (which you can also get via foods), it is also extremely easily available and very cheap. It stops viral replication. There are many other natural products that can knock viruses on the head almost overnight.

Alar Feb 24, 2021 2:28 AM

The "virus" is Frankenstein's work.
It lives, thinks, plays games!

"The SARS-CoV-2 virus, they add, makes multiple uses of molecular mimicry in its efforts to exploit its human host by mimicking, in Batesian fashion, healthy cells in order to infect the host organism."

<https://phys.org/news/2021-02-game-theory-combating-viruses.html>

There is a long, long list of who should be sliced alive:
Scientists and their organizations, with Big Pharma; Gates&Rockefeller and their types; all police; all politicians and all central governments; all banksters; all military; all rapacious business organizations like Amazon, etc.; all rapists; all bullies and torturers; all tricksters; all thieves; all imbeciles who believe the devils and betray their families; all evil-hearted; on and on...

Who will be left?
Maybe 100 humans, maybe 1,000.
May the day come!!!

Phillis Stein Feb 26, 2021 1:02 PM Reply to [Alar](#)

The Berlin Commission has been working on this disgrace of a situation since July last year and they are determined to take this to Nuremberg 2.0. This whole scenario contravenes almost every part of the Nuremberg Code, among other ethical considerations. So, if everyone can avoid any of these shots for as long as possible, I'm hopeful that this may all be over. My heart feels so much compassion for those poor older folk who have absolutely NO hope of informed consent within a nursing home environment.

Anti Fertility Vaccines

[Anti-fertility vaccines – PubMed \(nih.gov\)](#)

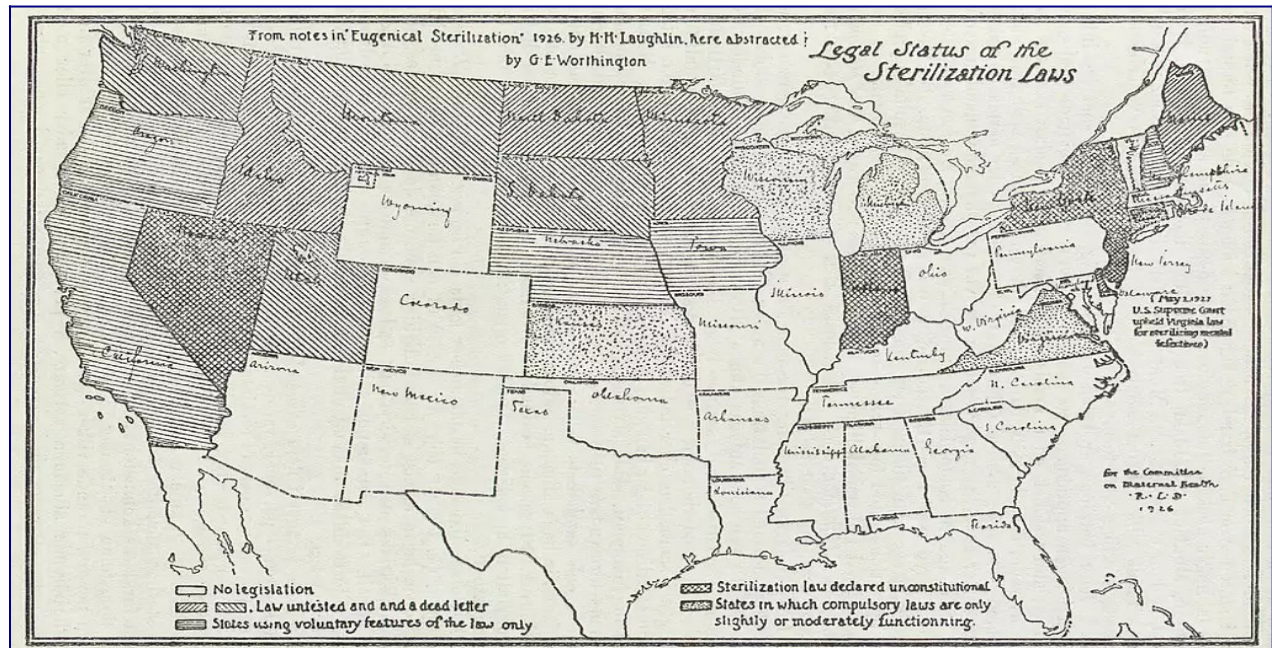

Tomoola Sitchin Feb 24, 2021 11:23 AM Reply to [Peter](#)

Death is anti fertility.

Maggie Feb 24, 2021 4:01 PM Reply to [Tomoola Sitchin](#)

Anti fertility sounds better than sterilization, as used by the USA.

1849

Harry H. Laughlin/ Wikipedia Commons

Gordon Lincecum, a famed Texas biologist and physician, proposed a bill mandating the eugenic sterilization of the mentally handicapped and others whose genes he deemed undesirable. Although the legislation was never sponsored or brought up for a vote, it represented the first serious attempt in U.S. history to use forced sterilization for eugenic purposes.

1897

Michigan's state legislature became the first in the country to pass a forced sterilization law, but it was ultimately vetoed by the governor.

1901

Legislators in Pennsylvania attempted to pass a eugenic forced sterilization law, but it stalled.

1907

Indiana became the first state in the country to successfully pass a mandatory forced sterilization law impacting the "feebleminded," a term used at the time to refer to the mentally handicapped.

1909

California and Washington passed mandatory sterilization laws.

1922

Harry Hamilton Laughlin, director of the Eugenics Research Office, proposed a federal mandatory sterilization law. Like Lincecum's proposal, it never really went anywhere.

1927

The U.S. Supreme Court ruled 8-1 in *Buck v. Bell* that laws mandating the sterilization of the mentally handicapped did not violate the Constitution. Justice Oliver Wendell Holmes made an explicitly eugenic argument in writing for the majority:

“It is better for all the world, if instead of waiting to execute degenerate offspring for crime, or to let them starve for their imbecility, society can prevent those who are manifestly unfit from continuing their kind.”

1936

[Nazi](#) propaganda defended Germany’s forced sterilization program by citing the U.S. as an ally in the eugenic movement. World War II and the atrocities committed by the Nazi government would rapidly change U.S. attitudes towards eugenics....

But here we are again...

All adults on the learning disability register will be prioritised to get a coronavirus vaccine, the Government has announced, following calls from BBC presenter Jo Whiley.

This means 150,000 more people at higher risk will be offered a jab more quickly in England.

“For their own protection of course.”

And I remember **having seen film of Geo Bush sr in his years as a Congressman speaking in favor of sterilization of those he deemed unfit. The video disappeared when he ran for Prez,** of course.

In their view we are all unfit, because we are not in their lineages, which they consider superior. I don’t really think people really get just how much these folk DO NOT CARE, literally. People find this hard to grasp, because they DO care about others, which is a lovely thing, obviously.

And Bill Gates has been aggressively doing this all over the world for years- and now it’s our turn. He is a well known eugenicist and is well known for saying something along the lines of: “We could reduce the world population by about 10 per cent if we do a really good job with vaccines.” There are lots of eugenicist organisations and individuals connected to some of these vaccines.

Eugenic sterilization of those who cannot function independently in society is at least a defensible intellectual position. In the end it comes down to a moral judgment. On the other hand there is no defensible rationale for these injections to be given to anyone of child-bearing age.

Back in early May 2020 I posted a comment on the conflict in the vaccine industry. Unfortunately, I can't find the Del Bigtree video (Vaccine Unicorn), but the referenced article is as follows:

How the Hunt for a Coronavirus Vaccine Could Go Horribly Wrong

<https://www.thedailybeast.com/coronavirus-vaccine-hunt-could-go-horribly-wrong>

Anti-vaxxers are ready to pounce if the furious push for a COVID-19 fix runs into trouble.

Rachel M. Cohen

Published Apr. 12, 2020

FTA: Urgent as the need is, public health leaders warn, moving too quickly could have disastrous consequences not only for reining in COVID-19, but for vaccines more broadly. If a vaccine is released that doesn't work well or yields dangerous side effects—especially in the face of an historic pandemic—it could empower anti-vaccine activists and reduce support for other longstanding vaccines that have gone through rigorous and exhaustive testing.

I'm curious about how the industry has managed to solve this problem.

I think this is the Del Bigtree video. See @ 5:30 for the cautionary statements by Fauci, Offit, Hotez, etc

The HighWire with Del Bigtree

10 Apr 2020

Covid-19 Vaccine: Are You Waiting For a Unicorn?

Our world health leaders seem to be putting our lives on lockdown for a Covid-19 vaccine that doesn't currently exist. A vaccine that has failed to be released for decades due to deadly problems

At the time, it struck me as odd that there was suddenly so much widespread derision against anti-vaxxers a few years ago. It seemed so out of nowhere, and out of proportion. Now it seems like someone was laying groundwork. Or maybe I simply lack sufficient faith in mere coincidence?

I think you're so right. It's all about conditioning people. Here in the US there was a "big" measles outbreak in my neck of the wood a few years ago. Really, hardly any cases, and most had been vaxxed, but people started putting signs up on various businesses saying people weren't allowed in unless fully vaccinated. That was back in the days when publications still allowed comments, and wow, they were full of angry vehemence towards anyone who would choose not to vaccinate their child. There was literally no understanding of the dangers of vaccines or vaccine injury, and that's

why we can see how easily people will fall in line for the covid jab and also hate on and support banning those who don't take it from society.

Reply to [Cori](#)

I remember that measles "outbreak." The news reported – with a straight face – that there were 734 cases nationwide. They, of course, left out the part where almost all 734 cases involved children who had already been vaccinated.

And what a coincidence that **the film Contagion was released in US and UK in September 2011??** at about the same time that anti vaxxers, were being vilified?

Just in time to get it deep into the public psyche to prepare them. Unfortunately I think they left too long a time span, because the fact that the public panicked and demanded a vaccine at any cost, missed the boat,

In Israel those vaccinated get a green sticker so they can partake in societal life (go into restaurants, café's, travel, etc.).

What message is being sent about those who do not have a sticker? What will other countries do? Why is the counter movement so small?

Glad to see **Prof.Dolores Cahill mentioned who is taking part in such a movement and travels without giving consent to the so-called "requirements" to travel and builds a legal team to support the counter-"culture".**

Never mind. Found it myself, even though it's from the guardian (not very trustworthy, but usually it is in these things)

<https://www.theguardian.com/world/2021/feb/19/covid-vaccinated-israelis-to-enjoy-bars-and-hotels-with-green-pass>

Guess that the advantage of growing old is that you can experience everything as reality that you once considered as completely unreal.

2021-07-08 Assange Extradition: British High Court Grants US A Limited Appeal

https://www.oom2.com/t76118-assange-extradition-british-high-court-grants-us-a-limited-appeal?utm_campaign=Feed%3A+oom2%2Fvxbl+%28Out+Of+Mind%29&utm_medium=email&utm_source=feedburner

The following was originally published as part of Shadowproof's newsletter, The Dissenter. To become a subscriber, go here.

The High Court of Justice in the United Kingdom agreed to hear the United States government's appeal in the extradition case against WikiLeaks founder Julian Assange but on limited grounds.

According to Stella Moris, who is Assange's partner, the High Court rejected the efforts of the U.S. government to "second guess the magistrates' conclusions on medical and expert evidence."

No date was immediately set for a hearing on the appeal, and it was unclear whether the High Court had considered the request by Assange's legal team for a cross-appeal.

The Dissenter reviewed the appeal submissions, which are not publicly available.

On behalf of the U.S. government, the Crown Prosecution Service challenged District Court Judge Vanessa Baraitser's decision to oppose extradition on account of Assange's "medical condition."

Prosecutors contended the judge made errors of law when determining whether it would be oppressive to approve his extradition. They also insisted the judge should have notified the U.S. government of her "provisional view" so they could offer her "assurances" to alleviate her concerns.

Furthermore, prosecutors maintained the judge should have disqualified defense psychiatrist Professor Michael Kopelman, whose assessment and testimony on Assange played a crucial part in her decision.

Attorneys for Assange countered claims that the Crown Prosecution Service put forward in the appeal, maintaining Baraitser did not commit an error when she concluded Assange's "suicidal impulses" would come from his "psychiatric condition" and would not be "his own voluntary act."

Regarding the argument that the judge was wrong to favor Kopelman's evidence, Assange's legal team asserted, "This attack totally fails to recognize the entitlement of the primary decision maker to reach her own decision on the weight to be attached to the expert evidence of the defense on the one hand and the prosecution experts on the other."

The High Court apparently agreed Baraitser was well within her right to consider what weight to attach to evidence from each of the medical professionals.

Prosecutors offered the High Court “assurances” that were never put forward during or prior to the extradition trial. They suggested the U.S. government would not impose special administrative measures (SAMs) against Assange in pretrial confinement or in prison if he was convicted, though they did not say they would not hold him in administrative segregation or other forms of isolation.

Assange “will receive clinical and psychological treatment as is recommended by a qualified treating clinician employed or retained by the prison,” where he is held, the prosecutors added.

The prosecutors claimed Assange would not be imprisoned at ADX Florence in Colorado, a supermax prison, but they included a caveat that left open the possibility that he could be sent to the facility if he committed a “future act” that met the “test for designation.”

Significantly, the prosecutors tried to salvage the extradition case by agreeing to allow Assange to apply for prisoner transfer to Australia under the Council of Europe Convention on the Transfer of Sentenced Persons.” The U.S. government would “consent to the transfer.”

Assange’s legal team bristled at this offer. “They had every opportunity to offer such an assurance at the extradition hearing, since the relevant Council of Europe treaty has been in operation for many years.” But the U.S. government did not offer this assurance so it could be tested during the extradition trial and before the judge issued her decision.

“Such a transfer under the specific provisions of the treaty could not take place until the conclusion of the trial and all appellate processes, which are obviously likely to be very prolonged,” the defense replied. “In the meantime, Mr. Assange would be detained in the conditions of isolation identified by the defense expert witnesses—and in any event—in an alien and hostile environment far from his family.”

It was not immediately clear how the High Court responded to the “assurances” put forward by the U.S. government well after the extradition request was litigated in September 2020.

Moris spoke to the press outside the High Court after the decision. She had visited Assange at the Belmarsh high-security prison in the morning.

“The U.S. government should have accepted the magistrates’ court’s decision. Instead, it keeps this case going,” Moris declared.

She contended the case is falling apart because the U.S. Justice Department’s key witness, Soggi Thordarson, “admits he lied in exchange for immunity from U.S. prosecutors.”

“The lawyers of Julian were spied on. Their offices were broken into. Even our six-month-old boy was targeted while he was in the [Ecuador] embassy, and now the High Court has limited the grounds on which they are allowed to appeal,” Moris added.

"[Attorney General] Merrick Garland has egg on his face because of the decision to use a witness that perjured himself in order to try to imprison Julian and keep him imprisoned."

Asked about Assange's condition, Moris shared that he is "very unwell" and described Belmarsh as a horrible place. She mentioned that another prisoner recently committed suicide.

"It's a daily struggle. He won his case in January. Why is he even in prison? Why is he even being prosecuted? There is no legal case against him," Moris concluded.
