HARD NEWS: Rama, Tara [R,T] • • • •

R, T: Greetings!

R: an interesting day – didn't get to talk to anyone

Did get a text from Tom:

Asked him why Amy had on a man who said that Obama has to be ??

Tom: we don't know how gagged Amy is; has to answer to the Deep State and the Vatican

T: Ray McGovern on Cross talk – they are at the end playing last card

R: between August and Mid-Oct -

Eris and

in one episode – *Hercules and Xena*: Hercules had to take on Eris who is Discord

Aries is Hercules ½ brother – Eris is not to be messed with

Tom: we are moving through the period of their last moments -

they are getting exposed and don't like it – 20 years of a proxy war and Congress never declared it as a real war –

- Julian Assange is a political prisoner for exposing war crimes – and why is it a crime to speak of what you saw: genocide, and so on
- and Michael Hastings was killed for saying 9/11 was an inside job – and they wanted the gold in the bottom of the building – Silverstein and others made money from the insurance companies when the buildings went down

T: Jimmy Dore was on **Going Underground** [RT] with Afshin Rattansi

Afshin R: the season finale as the world potentially witnesses the end of the era

Audio: Going Underground

VIDEO: Pakistan's UN ambassador and Jimmy Dore on the Taliban's takeover of Afghanistan (E1045)

PODCAST: <https://soundcloud.com/rttv/going-underground-pakistans-un-ambassador-and-jimmy-dore-on-the-talibans-takeover-of-afghanistan>

On this episode of *Going Underground*, we speak to Pakistan's permanent representative to the UN, Munir

Akram. He discusses India blocking Pakistan from joining the discussion at the UN Security Council between countries in the region over the Afghanistan crisis, the speed of the collapse of the Afghan government, Pakistan's operations with regional countries to reach a political settlement in Afghanistan, Russia's initiatives in the Afghan peace process, Pakistani PM Imran Khan's comments on the Taliban 'freeing Afghanistan from slavery', and much more!

We then speak to Jimmy Dore, host of the Jimmy Dore Show. He discusses why the Afghanistan withdrawal is window dressing to shift attention from a refocusing of US imperialism, the West's concerns for women's rights in Afghanistan following the Taliban takeover, the Afghanistan war as a big win for the military-industrial complex, the arguable irony of the West helping overthrow the Soviet-backed communist government that protected the freedoms that the Taliban now threatens, US President Joe Biden's refusal to enact a \$15 minimum wage, why he calls for a US military intervention in Los Angeles, the climate crisis and the role of the US military in worsening it, and much more!

JIMMY DORE

T: There is a great deal of exposure happening now . . .

CONFERENCE CALL

<https://fccdl.in/VajpVzvAEB>

VOLUME COMES AND GOES

Ca/Bi: ShopFreemart and next gen currency will do a lot of things: John Austen has a new co-owner with lots of money – so things will get a lot more support.

- Expect lots of people to join and value to go up: he suggests getting a \$50 contract and will give the coins for 5 cents each
 - if the coin goes up to 300 / coins and will be \$300,000 if the coin goes up
- Bit coin was 5 cents per coin – people put in

RGM: how do I get cash in my hand?

Bi: contract is for 12 mos, at the end you get it

- you have a cash a/c and spend that
- then there is the re

T: sounds like things are going to pop - what we're going through right now – what Jimmy Dore said it all: jaw-dropping exposure
they will not let 9/11 go by without doing something – which is why J Dore could rip open the veil -

MISSING SOME

- Dore gave something out ? - and RT has millions of viewers
she stated in fact that the US CIA created the Taliban;
Jimmy Dore added: M I 6 helped with this
- Another blockbuster: **Crosstalk with Peter Lavalle** – Ray McGovern was on
 - Peter is a conservative and let Ray go on and on – the facts are the facts

- things that are so outrageous: trying to get people freaked out and full of untruths
- Faction 3 White Knights are on it!

So: have to keep the fear going

T: people being completely brainwashed – and it has to do with fear! Go get the vaccine – and think they are fine and are not

- St Germain is intervening on this – sometimes people turn away from the spiritual
 - already 4 – 4.5 billion dead already
 - the ones 'in charge' think they will remain in charge
 - eg they have had inventions for 70 years and never needed the bio-medical complex
 - have technologies like on Star Wars

So: an article from a colleague who lives in Spain: doctors marching with protestors

Ca: a question he has: in Atlanta, the hospital systems have officially required staff to be vaccinated - and that will soon mean booster shots which have been authorized

- seeing it in sports leagues, colleges, - society becoming stratified
- those of us resisting
- interesting that FDZ and the others that can't approve it
 - the pharmaceutical companies have protection – make money anyway so why do you care if anyone dies

So: at one point does it change from status of experimental to something else?

CHIN: has learned from a doctor and someone else why FDA has not approved the vaccine –

- Pfizer and Moderna have never approved any technology don't approve the TECHNOLOGY that those 2 companies USE TO PUT IT OUT – but they have approved Johnson and Johnson

so it's the clinical trials that don't matter: it's the technology in producing the vaccines that is not approved

T: if you have test a vaccine, should be 5-7 years – can't call it a vaccine without those years of tests

CHIN: a moot point – will not be getting it approved

T: J & J the most criminals

CA: the media so pushing – why does it ever matter if any vaccine gets approved if these ones don't get approved?

PH: understands that Colbert, Obamas, White Knights got the vaccines – why have they taken the vaccine; will they ascend?

T: Thom Hartmann is scared out of his mind – one day Bernie mentioned the reformation act and on the Sunday, Thom got a bullet in the driver's door – that happened 3x

- and he got his double vaccines
- and she thinks the others get fake ones – IF THEY DON'T [get a vaccine], THEIR ENTIRE extended FAMILY GETS KILLED AND CLONED.
- Rachel Maddow has been bought by MSNBC for \$12 million / year

So: Dolly Parton has donated \$1 million to Pfizer

PH: where does St Germain fit in – intervention?

T: they may not intervene against free will – we the small group are to remain in divine compassion and 20,000 listen to us every month from all over the world

the Australian Prime Minister is pure evil

RB: how to convince – if you were asymptomatic person - every time someone takes the vaccine, a spreader is created

T: want to get rid of people who know what they know, and people don't get what is going on -

R: another piece: what the scientists know about the climate changes, climate disruption going on – it's massive.

- On the website www.stardrive.org – **Jack Sarfatti's Blog** – has been around since *What the Bleep do we know? (documentary)* scientists are talking of the sun's transfiguration, and the solar flares, and the magnetic field of the earth expanding and collapsing; the Schumann Resonance shifting every single day –
- it's about what's coming in – how do you explain that you are getting lifted up, ascending – have to lighten up and if you don't intensity continues to increase

T: in the 60s wanted to reduce the population to under 2%

P: ice sheets in Greenland being rained on!

R: Hurricane Henry coming into Maine area

Ca: lost connection when P asked about Obamas and vaccines?

T: doesn't think they got real ones – yes, double agents again!

Ca: did T get vaccinated?

T: **NO** – had a homeopathic treatment

R: **what KOS said – it is not a vaccine; it's a biological AI operating system which hooks you up to 1000s and 1000s of satellites to Elon musk's routers spinning around the planet to create a fence around the planet**

- the internet of things – Ben Stewart who made **9/11; Loose Change** – he says this is the next step the internet of things – smart tv, smart fridge,

Z: about when it all

R: when NESARA comes in, all these things get neutralized IMMEDIATELY -

Z: Thursday night's show brought us back to what the vaccine is really about and it was a great show last night!

Mother / Alcyone

[M / A]

Greetings in the Light of the Most Radiant one. In the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame.

Yes. Divine Chaos is going on! It is about the nature of things, as this local system gets back into balance with the pull of the galaxy.

- There is much magic afoot, as this full moon approaches with the energies coming in of the water bearer.[Aquarius] Like Dr Emoto said: when you talk to the water, the crystals will talk to you.
 - And we are water – it is about this whole story, right now we are living, breathing amino acid computers, divinity like we've been hearing – what is soul? Old Sol ?
<https://www.youtube.com/watch?v=C2ZkC0mBozM> we've been through this circle one too many times; this is the issue at hand. Ascension is unfolding even as we speak; it is a challenge to stay in these forms and handle what's happening.

T: Trump having another rally – a spreader

M/A: super spreader. And the folks from Sturgis – let's say: what a scene! It is about these energies that are coming in that are aligned with the Office of the Christ, not with the devil in the back yard.

- That's what She could call this Matrix of Things. What a cosmic story!

- We know we all make it, as She has said many times: they are from our future, which is their past - metaphors, conundrums – the issues at hand are about getting through this moment as Uranus goes retrograde, Pluto, Eris square - it's about this school we're in

T: School of Discord?

M/A: Eris would like to call it the School of Discord, as she walks through the grave yard of empires and

T: this is so peculiar, that the Deep State created the Taliban and it was for advantage of minerals, lithium, poppy/ heroin; trafficking – what else?

M/A: Let's just say at the moment, as the fossil industry becomes a fossil fuel that is missing in action – we are just speaking about the times we're in.

- What's happening on the planet is not about consuming the planet; it is about how we ask her and it shows up in the process of the consciousness of how we interact with Gaia/Vywamus . Everything we need, want, desire is within this garden – don't gotta go anywhere; right here – like She's said: 30 days, give or take, it will be fixed.
- It is about this one moment we're in, this great awakening – and the quantum field of what these folks been talking about – the Akash – All That Is -

T: there is the wishy-washy stuff going on about the allies, which is really 80,000 who assisted the US military while engaged in Afghanistan

M/A: Coalition of the unwilling, as She can call it – the lies

T: they are just not going to commit now – there are flight after flight going out - 13,000 who have gone out on the flights, yet there is no commitment for the others and it's the 20th – 11 more days until the end of the month

M/A: and there are rumours that they want to push the date further into infinity –

- heard something about moving the deadline so they can get more people out of harm's way. Yet all of this is about the realm of effects: what we think, comes into manifestation. False story about a foreign country attacking the US on 9/11 – did not happen: we attached our selves. Particle beam weapons, Hutchison effect – look up "Dr Judy Wood"

T: How's this gonna happen? When she heard Assin Rattanzi and Jimmy Dore at 3:30 am . . .

M/A: It's about these offspring of the Nephilim whose time is up!

T: Besides being a pathological liar, there is a clone operation going on here too . . .

M/A: Part of the passion pay to stir the pot

T: how can we attribute the waddling Hillary hologram with running the operation – what in the world? . . . please help!

M/A: What's going on is the end of a cycle, a grand cycle, and at this time, we can say this is the most critical moment, period between now and Souhain, and they want to play with opening the portals and do dark deeds dirt cheap - a little blood, a little gore!

- It is about that the time in this realm is up. They are going to a place that has already been determined

T: This little arrangement of Internet of Things, of everything and hooking everyone up to a lovely little super matrix

M/A: we saw what happened to folks who bought the lie in The Matrix: not fun!

T: Just saying – this is what’s happening!

M/A: Blaze the Violet Flire! This is why Patti and Commander Kryon of Magnetic Service are saying This is the hour! Out of nowhere, out of left field We show up!

It may look what it looks like in the moment: we are fending for ourselves, yet we can speak for what is in orbit around our planet and in our atmosphere: legions upon legions upon legions of Archangel Michael’s compatriots.

- There are so many here! It’s – there are no words, yet pass the soup, as Kryon has said

T: What you have said – kinda playing around; time for dinner

M/A: it’s a metaphor for the energies going up, as Her wayward children dissolve themselves in the Void because they have chosen not to accept the light that’s coming in, and some are on the fence

- Yet there are no fences; it is about this moment here, when the sun sends out a mighty burst of light at a certain critical juncture – could happen in the present time frame/space – not going to destroy the planet, yet everybody gonna wake up and we’re gonna have some tea and figure out to fix this.
- As She has said, when the guns stop and peace is declared, we can really begin this conversation about reparations

T: How does this work? In the face of the evil being executed here?

M/A: Gotta look past the evil as a temporary glitch – yes, these things do seem to take eons of time and when you are part of the Eternals, the Celestials, Immortals: there is something called ‘no time’: all time is now,

- Yet She’s seen the revolving of the cycles, the return – 26, 826 years - we’ve gone past 2012 –
- Now is the time - just watch, get up at the crack of dawn; watch the sun. At sunset we will see the particles of Living Love, Living Light pouring in to shift this story yet most folks cannot even take a moment out of their day –
- it is about priorities: we want to ascend? Gotta listen to the sun and the frequencies coming in. The hertz are getting raised up, whether we like it, love it or not accept it, it is happening; it is part of the nature of what has to occur now – as Goddess, Vyamus, Gaia - the symbiotic relationship has said - we’re ascending; you’re going along for the ride – come on!

T: like the baby elephants – the mothers are using their trunks and lifting them [the babies]

M/A: We’ve got a journey to go on; we have yet to begin to see the wonders of this local galaxy, universe: it is so magnificent – and at the same time, this may sound like a ridiculous acid trip: it is not.

- Look around you; listen to what Dr Greer is saying
 - There are folks here from before She Showed up: it is this story about light and dark, anima animus; primordial creation.
 - We asked to be co-creator gods and goddesses of the Most High: here we are – We’ve got the keys to the kingdom: gold dust, consciousness – we wanted to create: here it is: it is about the realm of cause into the realm of effects
- We created with our thoughts
- It is as it always has been - we are most powerful creator gods and goddesses of the Most High – gotta remember that when we’re being fed the BS by the one eyed monster [tv]

T: The one-eyed Monster?

- what She can say is stay in the high heart through this period of time as the collector of souls has arrived

Greetings . . . [She does not leave]

T: what are you speaking of?

M/A: She is speaking of the time we are in; the crack between the 2 worlds. As the energies rise things have been crystallized, polarized.

- You wanna make it? Take care of this temple of the living God, Goddess, All That Is – we are immortal beings, eternal . . .
- at the same time, we are in a quandry about this energy called Koyaanisquatsi: life out of balance: LEAVE IT ALONE! It is not part of the story yet the light coming in from the particles of the sun are neutralizing it - even as we speak
- It is quite a puzzle.

T: Remembering the being who came to visit with their friend Wambly who was going through PTSD from the tours in Afghanistan, and his overlords were there telling him to kill men women and children and if he didn't, he was killed – same thing now

M/A: At this moment, What she has to say this ends here and now. As we take back our power with love, it overrides the old programs from Kali Yuga

T: Having that glitch that Qatar can't take any more - don't forget we have a pathological liar running the show – and Kamala always standing behind a little bit – this is chaos!

M/A: She can say with great certainty – this may look like what She has said: the graveyard of empires, and where empires go to die –

- remember what Buddha experienced - grew up in Afghanistan in a palace – went out and went to see the world; he saw the people going out and dying; said he didn't want the riches, wanted to be with the people; I want to find out what it was about ascension . . .

T: the gov't cut off the paychecks to all the Afghans

M/A: 300,000 guys with guns – where are the paychecks?

T: and now 20 million Afghans starving

M/A: if the Us doesn't pay, the Taliban will pay. Where does the cycle end? Which is why She says: If we were to see this from Their advantage point, Archangel Michael and his legions are do deep throughout this atmosphere of this planet, yet the signal will be given

T: so we keep on breathing, and smile because it works; believe in the magic – is that the deal?

M/A: and before enlightenment, chop wood, carry water; after enlightenment, chop wood, carry water

Both: Greetings in the Light of the most Radiant one – Kadoish, Kadoish, Kadoish . . .

Rama Returns: was on Lady Master Athena's ship – he and the droids. He was in the medical facilities and there were 3 droids working on him – remembers gold, and blue, and green lights going over his whole body: the vibrations of the rays of energy were quite intense: being vibrated with light – was a trip, was all good! Pass the talking stick

T: another ripping away of the veil

R: go look at the moon! ! !

Ray McGovern and Danny McAdam and someone else

Peter asks Ray why the intelligence community is loved so much now by the liberal media?

- now it's a whole group of interests
 - process of military and intelligence and media merging began with Bill Casey
 - an unholy alliance
- the American people want peace -

Audio: REDACTED TONIGHT ~352~ Is Facebook's Smart City The Return Of The Company Town?

<https://www.youtube.com/watch?v=AvTz2GDAOPM>

Watch the full episode: <https://portable.tv/videos/companytowns>

Naomi Karavani introduces viewers to a retro development in corporate totalitarian power. "Company Towns" were made famous by coal towns where the miners and their families would live in houses, shop at grocery stores, spend independent "scrip" currencies, and send their kids to schools owned by their employers. Modern corporations are trying to bring back this practice in towns across the US.

Also in this episode: Naomi Karavani reports on the US's quick return to Afghanistan, insider trading from Congress, and more.

Jaffer Khan joins Naomi Karavani to cover a development from the Sheikh Jarrah neighborhood in Jerusalem. Israel's courts decided to allow Palestinian residents of Sheikh Jarrah to stay in their homes under the condition that they pay rent (on their own homes) to Israelis. This comes after a global protest movement kicked off over Israel's settler-colonist policies in that neighborhood.

Anders Lee and Naomi Karavani end the show discussing threats to the endangered red wolf in the US, and the extension of the eviction moratorium.

On this week's show, Prof. Wolff discusses the election of a socialist, African-American woman as new mayor in Buffalo, NY; US unemployment insurance's meager support for jobless; Teamsters target Amazon workers for union drive; veterans' suicides and the costs of US wars.

On the second half of the show, Wolff interviews Rodrigo Roa Fernandez, Chilean revolutionary activist on his country's new feminist movement, Constituent Assembly, and new Constitution.

Over the last decades he has been advocating for the realization of the first democratic gender parity plurinational Chilean Constituent Assembly in 200 years of Patriarchy. Helping others brings deep satisfaction. No matter how powerful we may seem to be, our survival depends on the community. Clearly the community is crucial to individual happiness, so if we make others happy, we too derive benefit.

This could be gone within our lifetimes.

Well, it's finally happening. Temperatures in Greenland have risen so high thanks to "blocking" events that trap warm air in the higher latitudes that rain is falling for the first time in recorded history. Scientists on the ground are completely unprepared to measure the rainfall because they literally don't have the equipment to do so.

Per [The Guardian](#):

Rain has fallen on the summit of Greenland's huge ice cap for the first time on record. Temperatures are normally well below freezing on the 3,216-metre (10,551ft) peak, and the precipitation is a stark sign of the climate crisis.

Scientists at the US National Science Foundation's summit station saw [rain falling throughout 14 August](#) but had no gauges to measure the fall because the precipitation was so unexpected. Across Greenland, an estimated 7bn tonnes of water was released from the clouds.

The rain fell during an exceptionally hot three days in Greenland when temperatures were 18C higher than average in places. As a result, melting was seen in most of Greenland, across an area about four times the size of the UK.

Eighteen degrees Celsius higher than average. I believe that's 32.2 degrees Fahrenheit if my math holds true. Scientists are now saying the Greenland ice sheet is on the brink of a [major tipping point](#).

The new analysis detected the warning signals of a tipping point in a 140-year record of ice-sheet height and melting rates in the Jakobshavn basin, one of the five biggest basins in Greenland and the fastest-melting. The prime suspect for a surge in melting is a vicious circle in which melting reduces the height of the ice sheet, exposing it to the warmer air found at lower altitudes, which causes further melting.

Unicef has also just released a new report that states at least half of the 2.2 billion children in the world are facing "extreme risks" of [climate impacts](#).

Almost half the world's 2.2 billion children are already at "extremely high risk" from the impacts of the climate crisis and pollution, according to a report from Unicef. The UN agency's head called the situation "unimaginably dire".

Nearly every child around the world was at risk from at least one of these impacts today, including heatwaves, floods, cyclones, disease, drought, and air pollution, the report said. But 1 billion children live in 33 countries facing three or four impacts simultaneously. The countries include India, Nigeria and the Philippines, and much of sub-Saharan Africa.

The picture looks dire for human civilization on Planet Earth and still nothing substantial has been done about it. We're still addicted to fossil fuels, CO2 output has increased over the years, and all scientists can do is keep issuing warnings that are largely ignored by our governments.

We are truly boned.
