**Caller/C:** akashic records are located under the pyramid of Giza

- and there is an anchor point for the records on this planet . . .
- the city under the pyramids is millions of years old and still fully functioning – if you try to go into that city and you're not ready, you disappear!
- There is space technology that can put you into a bubble and there you are . . .

**Question:** which civilization put that city there? Pre -Atlantean – more of a Sirian connection and it is all under ground – it connects other worlds

This timely transmission gives immense assistance to the tumultuous events currently in outplay in the USA and around the world. Our victory in the light is assured, however, there is a great and wobbly bridge to cross.

On behalf of beloved Saint Germain, this calls in the light brigade to help bring in the needed reinforcement to a most critical passage. Please help with all your might, with all your prayers and invocation for Divine Intervention. Please constantly make those calls, every day, to bring support, protection, strength and illumination to all those who are working so hard to bring the needed balance and reformations to the Earth.

**The light of God always prevails**  
**The light of God always prevails**  
**The light of God always prevails**  
**and we are this light!**

**AUDIO: MOTHER / ALCYONE [M / A]**

Greetings in the Light of the Most Radiant One. In the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame.

### **Greetings, Children of Ra!**

Indeed We are in a new timeline. Magic is afoot!

- It is about like everyone said: It is done! So be it! And So it is!
- As the world [?] escalates a bit with the energies, it is a most auspicious time to be here. Light coming in, raising it all up. It is this moment as things – She calls it the emanations of Light pouring in at this time: this is about the wholeness, wellness, of this realm.
- What She can say about being here at this time – everybody has asked to show up now - in this moment, all the worlds seen and unseen [are here]; we are all in this together.
  - As the lawful process unfolds here, there will be disclosure in a most timely manner – it's long overdue and it is about what we've been waiting for –
    - How we handle the energies is our biggest test: send more love to the situations. Cos they ARE gonna push !
  - What She can say is the Light of 1 trillion suns [is] pouring in - raising it up!
    - Stay in that high heart 'cos anything else gonna get hot water in the situation.

**T:** They are not properly holding them accountable – now they are using words like assault and as opposed to murder . . .

**M/A:** all there is is a fear of what's coming next – is about what's going on

**T:** that was a trick . . .what?

**M/A:** They know We are here and there are not just one of Us; We are ALL here!~

**T:** You mean Paschats?

**M/A:** yes . . .

**T:** Do they know they are going for a little ride?

**M/A:** Yes they do – the moment where they're going to be having to negotiate with their Higher Selves how to handle the higher energies is right in the moment. Like the lady said: it is done! [from the *I AM Avatar* meditation]

- As things move up in octave, let us move with the higher energies in like kind: kindness and compassion for the most heinous of crimes is needed here, now.
  - As His Holiness speaks of - kindness, compassion is the path.
    - There are things unfolding at this time about the endgame of this old timeline.
      - It is complete. We are watching the last few nano seconds of it: don't get lost in the Maya.
      - They are pushing that very intensely now – trying to cloud the waters, the air, with false statements, confusion of the law:
        - murder is murder – ain't no way to get around it!
    - May we have Divine Compassion for these souls that are coming with Her – it is about the greater good for this planet and this sector of the galaxy that She comes in divine holy service, so to speak!
    - It is a most unique moment to be alive and experience what's going on.

- She commends us for sticking around for the best – might sound cliché, ironic, yet we chose to be here to see it through
- As Morpheus has said: we are still here! That is a big deal! Gonna stick around for a bit – gotta go visit a few folks in the land of the savannah!
  - Yes – gotta help a few folks out – giraffes, the elephants, the paschats, the people – as when the planet is in balance, we are in balance: the great shift of the ages is in this time
- In the last week there was an explosion, 11 light years away – the cosmic waves of that energy

**T:** a really huge explosion~!

**M/A:** yes it is being felt on this planet. As the cosmic wave get more intense, Jupiter and Uranus are going to escalate energies and matters - that is a good thing.!

- The water bearer, Aquarius serves it up – as She says

**T:** he's in charge of Freedom - freedom's holy

**T:** reading Giant flare through solar systems after explosion, scientists say and help us - one day ago Jan 14 the source of a huge flare that swept through our solar system

**2021-01-14 Giant Flare Sweeps Through Solar System After Powerful Explosion, Scientists Say**  
<https://dearborn.org/403703/giant-flare-sweeps-through-solar-system-after-powerful-explosion-scientists-say/> [SEE BELOW]

**M/A:** that is a few billion light years away not to worry

**T:** jangled

continues:

**T:** Micah, herself and another lady went to Guatamala, visited hot spring in guadalharua – as had an explanation of such things at a spot they visited

**M/A:** 11 Light years is a very short period of times – very close

**M/A:** What She can say: the light [that is] coming in is raising everything up – it is exciting - the frequencies - to lift this realm higher and, as we all know, gamma rays can do interesting things to the hu-man Adom Kadmon.

- As we work with the higher energies coming in, it activates, re-energizes this holy temple of Living Love, Living Light, and it can only get better as we embrace this Light as it is about ascension frequencies - stars, glowing suns; sons and daughter of the most high:
- we are being given messages about the light pouring in and how we can transform, transfigure these temples to even more Light, more Love

**T:** another article documents about Tesla who had contact with E Ts; he had a 6 year show talking about E Ts before 1900

**M/A:** he was talking with Commander Korton and Lord Monka of Mars – ON THE AIR, BEFORE 1900 - and along with Captain Ashtar and the rest of the ascended masters, Wise Council of Masters

**T:** Her comments about Telegram

- gets more challenging to discern – need to exercise our high hearts
- All the suspense – can something move?

**M/A:** Right at this moment, it is moving so f\*\*\*\*\* fast, we gotta kinda wonder if we're **not** feeling it, what's going on – it's hitting everyone: ascension frequencies are off the scale.

- It is a good thing: don't let the ascension frequencies to get to you:
  - take more time; get more rest, drink more water; stay in the radiance of the Violet Flame – it is our salvation.
- At the same time, the dark side know that it is this moment where it is done –  
**So be it! So it is!**

**Both:** Greetings in the Light of the Most Radiant One: kadoish, kadoish, kadoish; adonai sabaoth etc.

**M/A:** Watch the events unfold in a very good way. They are here! Expect Us! She likes green tea! Namaste!

**Rama Returns:** has been on Lady Master Athena's ship listening in on a conference about how many folks are here to help with the situations going on.

- He can say this is a most auspicious and blessed time to be alive – might sound totally nuts, but it is the best time to be here!

**T:** seeing the difference between 'hoodwinked' and 'This is what's REALLY going on!'

**R:** Wouldn't miss this for anything

**T:** Captain Picard likes Earl grey – hot; Mother likes macha green tea

**AUDIO: The Rachel Maddow Show** – continuation from earlier in the program:

**AOC is Rachel's guest** –

- AOC's earlier words: she did not know if she'd make it to the end of the day alive – and many members of the house were nearly assassinated – they were lucky that the members could escape the house floor
- The Washington Post of Jan 15: rioters loudly proclaiming
- AOC was correct about what had happened.

Lee Camp exposes the secret reason the US government is at war with Chinese tech company Huawei. Huawei is a worker-owned corporation and the US Empire cannot allow a good example to spread its influence unchallenged. Camp looks at some of the efforts the US' ruling class has undertaken to tarnish their name.

In other news, Camp looks at a Senate investigation proving that the Obama

administration funded Al-Qaeda. But this isn't the first time the US quietly funded the terrorists it fights.

Naomi Karavani reports on an artists' union organizing for Spotify to increase the royalties they give out. Spotify insists on mistreating the artists who create the product they sell.

Anders Lee finishes the show off with a discussion about DC statehood, and the Kansas City housing rights activists who are blocking evictions by shutting down their local courthouse.

2021-01-15 **Jupiter square Uranus: Healing Division, Expanding Joy [Jan 17]**

**Tania Gabrielle** <[newsletter@taniagabrielle.com](mailto:newsletter@taniagabrielle.com)>

On Sunday January 17, **Jupiter squares Uranus** – the first major Uranus transit of 2021. Only three days later on January 20th, Mars conjuncts Uranus. (More on that coming soon.)

Jupiter enhances, Uranus revolutionizes.

Jupiter brings wisdom and justice, Uranus invites breakthroughs and encourages freedom. Freedom is the keyword for the next 2,000 year Aquarian Age, which Uranus rules. So it is vital that we embrace freedom on all levels.

In particular, free will.

This 90° square is creating an inner tension which helps us overcome any resistance to being fully liberated and sovereign beings of love and light.

The natural wisdom and joy Jupiter enhances in you is vital at this time in history.

- Jupiter square Uranus creates *sudden changes so new ground can be broken, usually in a big way.*
- **Jupiter** attracts expansion and fortune, while **Uranus** invites a shift in every area that is held hostage by restrictions.

If you are focusing on the *shadow* expression of this transit you will slow down the Awakening it is designed to generate. Being fearful of change can lead to despair. Despair attracts confusion...

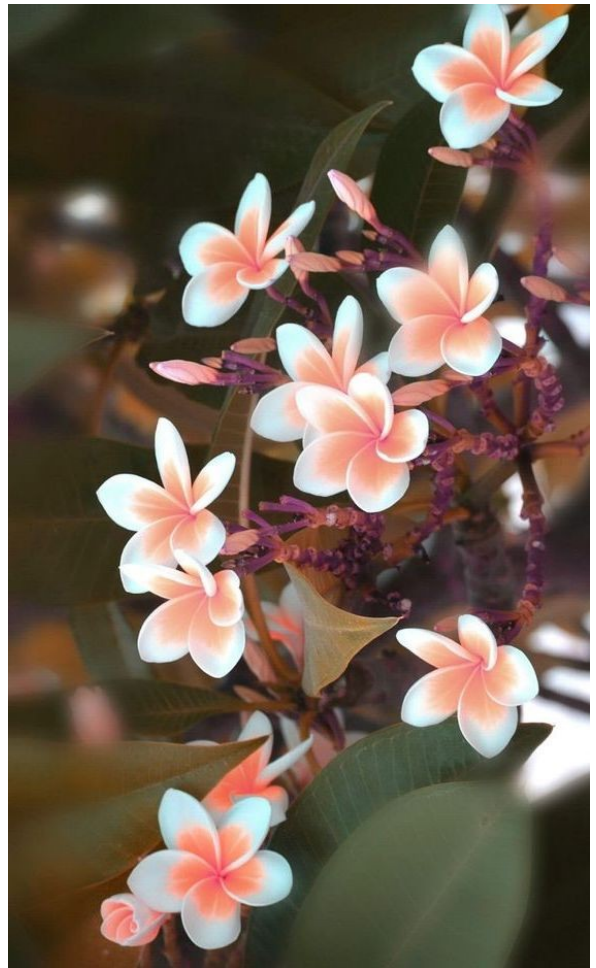

If this is the case, consider a new approach:  
When things beyond your control are not to your liking, **choose radical happiness.**  
Choose to smile at the world (Jupiter) and set yourself free (Uranus).

The Aquarian Age is asking you to access a radical new awareness.

We have reached one of the major tipping points in human history, as old ways and programming are no longer going to bring any sense of protection.

- The path to love and peace begins with a smile.
- Let's join together and reach across the divide.
- 

We have the greatest gift, allowing us to heal any pain, all divisions – **free will.**  
Let's use our free will in a wise, conscious way. That is the true meaning of Jupiter square Uranus. Without awareness we would only focus on instinctual survival.

It is our freedom to choose. That free will is being awakened like never before... Many tests are strengthening you to choose to be free. **Exercising that freedom restores inner peace.** Not exercising it leaves you functioning on your default programming – living an unconscious life. Uranus represents the higher mind.

The function of our brain is to record information and process it, like good software – *not to evaluate it.*

For that we need wisdom (Jupiter).

Since our brain does not have the wisdom to evaluate information, when we use our brain *anyways* to try to evaluate our life, we can only do so with previously stored information. The result is like being on a hamster wheel... or treading water.

Fortunately, we have the ability to be conscious. **Consciousness allows us to reflect upon our thoughts.**

Add in free will and we have the ability to choose what to think, choose what to believe and choose how we define ourselves.

- This is the true miracle – consciousness gives us the ability to override all recorded information in our brain!

Free will is the greatest gift.

Free will makes us co-creators – and *what is more fun and joyful than creating?*

So take this wonderful weekend of Jupiter's square to Uranus to appreciate your role as a co-creator.

Do so in a positive way!

Jupiter's placement in your personal Star Code reveals the natural ways you attract joy, fulfillment and well-being.

## FREEDOM FLAME TRANSMISSION      Let's go into Action Now!

Transmission >

<https://www.podbean.com/ew/pb-7thks-f74d83>

Blessings Warriors of the Light,

This timely transmission gives immense assistance to the tumultuous events currently in outplay in the USA and around the world.

Our victory in the light is assured, however, there is a great and wobbly bridge to cross. On behalf of Ascended Master Saint Germain, this calls in the light brigade to help bring in the needed reinforcement to a most critical passage.

Please help with all your might, with all your prayers and invocation for Divine Intervention. Please constantly make those calls, every day, to bring support, protection, strength and illumination to all those who are working so hard to bring the needed balance and reformations to the Earth.

This month is especially critical for our light work. Please do this transmission **as soon as possible** and use in any way you feel inspired as part of your mission.

We have the collective power to bring change. We *are* the change. Where we go one, we go all.

God bless you and God bless humanity.

## 2021-01-14 Giant Flare Sweeps Through Solar System After Powerful Explosion, Scientists Say

<https://dearborn.org/403703/giant-flare-sweeps-through-solar-system-after-powerful-explosion-scientists-say/>

The source of a huge flare that swept through our solar system has been pinpointed by scientists. The discovery could help the understanding of gamma-ray bursts, the most powerful explosions in the universe.

Earth is hit by mild and short gamma-ray bursts regularly, on most days. But more rarely there are vast explosions, like the newly examined GRB 200415A, which bring with them a lashing of energy more powerful than our own Sun.

The flare seems to have emerged from an unusual, powerful neutron star known as a magnetar, scientists report in new findings published in Nature Astronomy. "Our sun is a very ordinary star. When it dies, it will get bigger and become a red giant star. After that it will collapse into a small compact star called a white dwarf," said Soebur Razzaque from the University of Johannesburg, who led the research.

"But stars that are a lot more massive than the sun play a different end game."

Such stars instead explode into a supernova, and then leave behind a small compact star known as a neutron star. They are tiny – they could be packed into a space 12 miles across – but are so dense that a spoonful would weigh tons.

Those stars are the originators of the most powerful explosions in the universe. Such explosions affect phone signal today, but also represent a way of peering back into the very beginnings of the cosmos, arriving with us as messengers of the universe when it was in a much younger state.

The new research began in April last year – on the morning of 15 April – when a giant flare swept past Mars. A network of satellites including the International Space Station picked it up, triggering the research that is published today.

When GRB 200415A passed Earth, it was not the first such burst to be detected on Earth. But it was unusual in a number of useful ways, including the fact that it came from much closer to us than usual.

It was also the first such giant flare to be picked up since the Fermi gamma-ray space telescope was launched in 2008. That meant that researchers were able to gather vast amounts of data in the 140 milliseconds it lasted, giving them a much better picture of it than the previous visitor that arrived 16 years ago.

And when researchers were able to locate the cause, they found that was unusual too: it came from a magnetar. There are only 30 such known objects in our entire Milky Way, made up of tens of thousands of neutron stars, and they can be a thousand times more magnetic than ordinary neutron stars.

The galaxy from which the flare came is outside our own Milky Way, but only just on the galactic scale. It is a mere 11.4 million light years away.

Because of the work in the time leading up to the blast last year, researchers had built up a detailed set of predictions about what such a GRB might look like when it arrived at Earth. Professor Razzaque had predicted 15 years ago for instance that a giant flare would include two explosions, another closely following the first, and so they were able to compare those predictions with their existing research.

Scientists hope they are able to find yet more, and research them in yet more detail. That could help explain not only the processes that allow for such powerful blasts, but also use them as ways of understanding the story of our cosmos.

“Even though gamma-ray bursts explode from a single star, we can detect them from very early in the history of the universe. Even going back to when the universe was a few hundred million years old,” said Professor Razzaque in a statement.

“That is at an extremely early stage of the evolution of the universe. The stars that died at that time... we are only detecting their gamma-ray bursts now, because light takes time to travel.

“This means that gamma-ray bursts can tell us more about how the universe expands and evolves over time.”
