If we take a sense of universal altruism seriously, where is there room to have enemies? Our real enemies and the enemies of humanity are negative emotions like anger and hatred. Indeed, people who are dominated by powerful negative emotions should be objects of our compassion.

The Plasma Field

Rama I went and sat in **The Plasma Field** at 12:03 pm, very early this afternoon. It said to me, "Lord Rama, focus on the energies coming in from the sun." Then the Plasma Field showed me the sun on a holographic screen, up in the air, out of nowhere.

And I saw the sun sending out global circles of plasmatic light. These golden circles of light went out across the solar system and then headed into deep space.

The Plasma Field said, "Lord Rama, listen to my voice and close your eyes." Then I drifted off for what I thought was 5 or 10 minutes, yet as I opened my eyes, I glanced over at the clock, and it was 12:30.

As I was travelling along with the golden rings of light, I merged with them, and I was just in the Oneness. What I felt was this deep sense of calm, and the Plasma Field said, "Stay in this energy of Pure Light, Pure Love and Infinite Peace. Sat Nam! Namaste! Blaze the Violet Fire!"

Monday

Tom the Ring-Tailed Cat, Larry, Mr x

Rama: I received a text message from **Tom the Ring-Tailed Cat, Larry, and Mr x** at 11:45 am, late this morning. They all said to me, "Greetings, Lord Rama! We are in London, near Trafalgar Square, correcting some energies of a portal in this area. The global energies coming in today are preparing us to receive tomorrow's full moon in Sagittarius's Freedom Codes, in order to further the end of this old paradigm and anchor the new. The Schumann Resonance today is sky high, as well.

"There are anomalies going on all over Mother Gaia. Portals are opening, and there are Light Beings from the 9 Realms touching down through these portals to aid us in our ascension.

"The Dark Side is going down faster and faster; America is getting a HUGE history lesson in civics and proper protocol. The story on January 6th2021 was an attempted coup d'état, with emphasis on "attempted": they DID NOT SUCCEED!

"As we speak, there are more and more craft showing up in our skies. This full moon is a VERY BIG DEAL. Stay in the High Heart and send more Love! **We are closer than you think!** "

Then **Mr X** said to me, "Lord Rama, you may walk into Java Joe's to use the wi-fi service, and I may be sitting in the back of the room . . . and we'll have something to cuss and discuss about Trust Indentures. Sat Nam! Namaste! Blaze the Violet Fire!"

Tuesday

Natasha

Rama: I got to see **Natasha** today, at the Bird Sanctuary in Santa Fe. It was 12:12 pm as we met. She said to me, "Lord Rama, there are fleets upon fleets of starships in orbit around Mother Gaia, yet at a distance beyond our moon. This is because they are so large that their gravitational field would bump into our Earth's gravitational field, and most certainly cause a disturbance in The Force!

"Some of these ships are spherical-shaped craft that have been coming through a portal in our sun, Sol. Some are cube-shaped craft, also coming through this same portal in our sun Sol. Some are merkaba vehicles. These ones have been ordered into our realm by Lord Michael and Lord Metatron.

"As a signal is given, we will see the regular programming of the old order disappear. Next, we will be given news and official information from several galactic representatives. At that split second, as all of this takes place, the guns won't work; the tanks won't move; and the nukes are non-functional!

"We are at that place where you will hear the Harmony of the Spheres, and time and space will seem to stop and we will all experience that Oneness that I call The Force. The answers, my friends . . . are forthcoming!"

Natasha continued: "You, we, are the ones who are going to be the mediators, negotiators who share the wisdom that the Wise Councils of Elders have arrived, and that the Captain may be among them! !!"

Then she said: "We come in peace. We are family. See you in the Light of the Most Radiant One! Sat Nam! Namaste! Blaze the Violet Fire! May Peace prevail on Earth!"

Wednesday

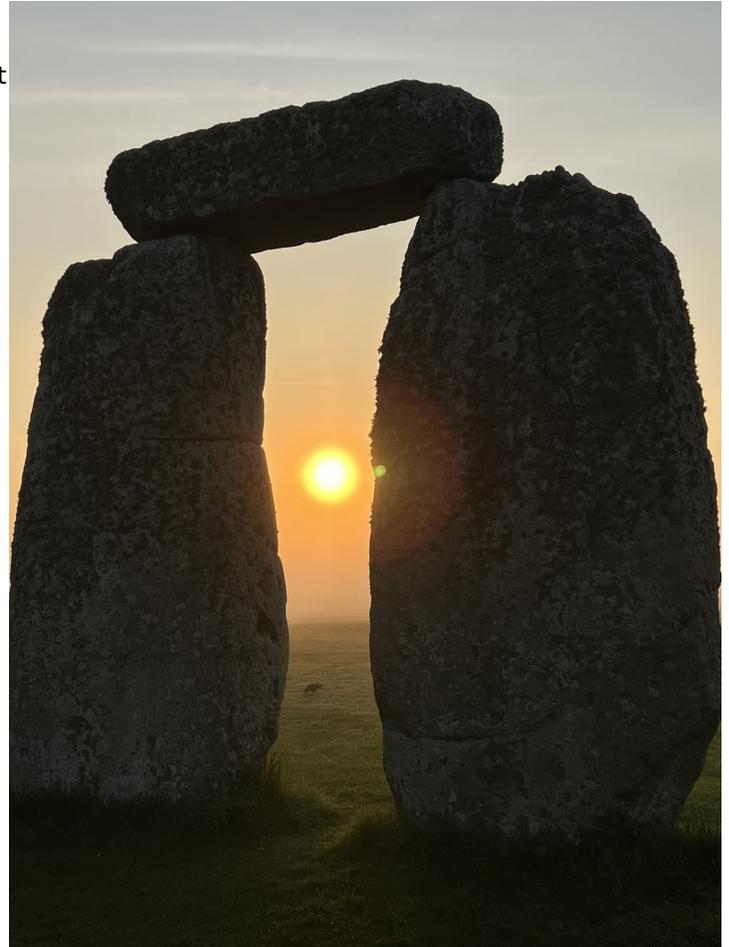

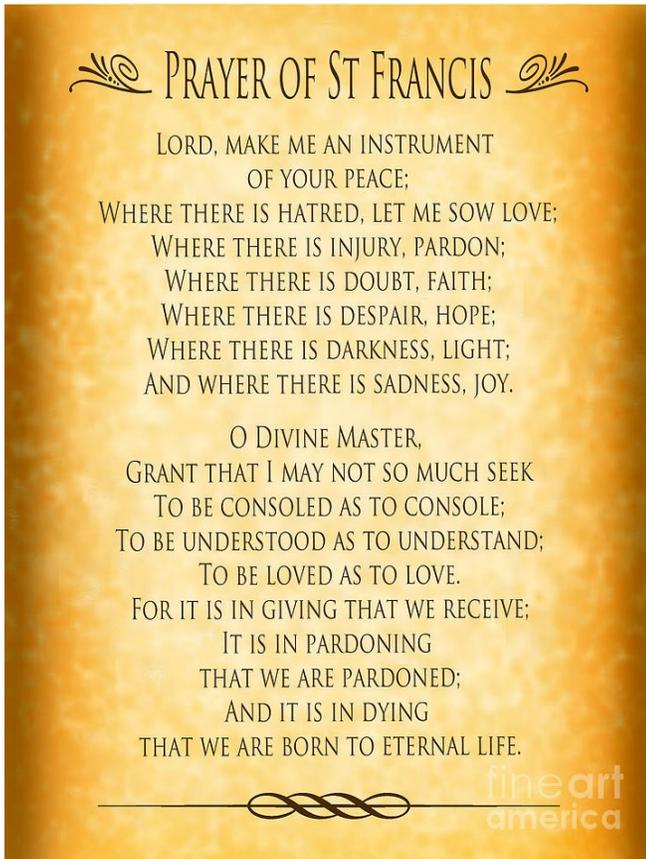

Larry the Cat

Rama: I received a text message from Larry the Cat at 11:15 am today. He said to me, "Lord Rama, I am at Stonehenge. There, early this morning, I caught the sunrise in a picture. I sent the picture to you, Lord Rama, along with a Zen message: "The mind is like water; when it's turbulent, it is difficult to see. When it's calm, everything becomes clear."

our

We are being asked to go deep into hearts and have forgiveness and compassion for the souls who have lost their way. Some made a choice to get lost; some got caught in the matrix.

How we get through this is what St Francis of Assisi said:

Thursday

Professor Nicodemus and Professor Steve

Rama: I went to see my quantum physicist professor friends at 11:45 am this morning. They asked me, "Lord Rama, how is your Jedi training coming along? I answered, "I have been working with visualizing and manifesting the plasmatic light through my hands."

At this point, they responded with, "Very good, Lord Rama. Now let's all go across the street to the laboratory." The laboratory, for everyone's information, is an underground room that can be accessed via a city sewer manhole opening. So my professor friends, Professor

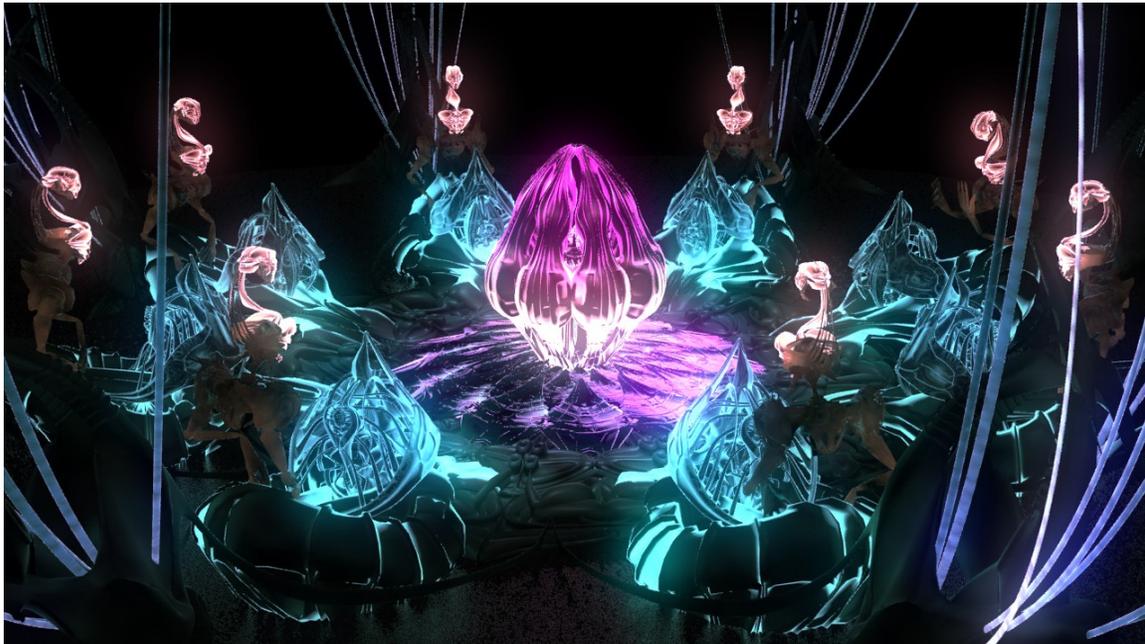

Nicodemus and Professor Steve, who both worked at Los Alamos lab for decades, led me across the street to the manhole. They brought an orange barrel to put by the manhole to indicate "Men at Work".

Then they opened the sewer lid with a crowbar and we all descended down the metal ladder. This time, they took me to a different room than the screen room. So I went into the different room with them and I saw it was filled with all kinds of computer parts. The room was REALLY large; it looked like a used computer warehouse.

Professor Nicodemus said to me, "Lord Rama, go and sit in that far corner of the room." So I did. Then Professor Nicodemus went and sat at the opposite end of the room to me. Professor Steve observed. Then Professor Nicodemus continued, "Lord Rama, visualize a golden ball in your hands and toss it to me." So I sat there and visualized and manifested a golden ball into my hands and then I tossed it to Professor Nicodemus.

Professor Nicodemus said to me, "Very good! Now visualize your merkaba vehicle and see yourself in orbit around earth." So I visualized my merkaba vehicle and I was gone, orbiting earth. I experienced a kind of rush and a feeling as though I had passed through a tube of light. I was having this experience for what I estimate was about 5 or 10 minutes so I could observe Mother Gaia below me. It was very beautiful and I felt that Oneness with All That Is.

Then I found myself back in the room. Then Professor Nicodemus and Professor Steve said to me, "Lord Rama, your training is coming right along! We will see you again in a week. And then we will have another surprise for you! It involves heavy lifting, but it is NOT heavy lifting! See you in the Light of the Most Radiant One! Sat Nam! Namaste! Blaze the Violet Fire!"

INFORMATION RELATED TO THE REPORT

2022-06-14 Full Moon at the Galactic Center

<https://shamanicastrology.com/archives/14770>

By Erik Roth

The Full Moon this month takes place on June 14th at 23°25' Sagittarius, very close to the Galactic Center, which rests between the Scorpion and Archer constellations. The Earth is roughly between the Sun and Moon, each of which appear at opposite sides of the sky. The Sun is nearing the opposite of the Galactic Center, the Galactic Edge (or extreme) and about a week from the Solstice point.

This Full Moon helps us dive into the deep waters of the skyscape, the billowing star clouds and densest population of stars. It reflects the light of the Sun in Gemini in its own quest beyond our duality as the Moon's placement activates the quest for a higher or greater truth in Sagittarius.

At the same time of this Full Moon, Mars is moving into a conjunction with Chiron in Aries, Mercury will have just moved back into the sign of Gemini and Venus with Uranus in the sign of Taurus. Combined, this shows a promise or intent for an opportunity to grieve (and gather the needed medicine) what was lost through destructive missions, an opening to the pleasures and treasures novel change and invoke one's creative imagination to see beyond where we may be fixed.

The Full Moon activates this fiery archetype of Sagittarius. Its essence is the ongoing journey itself for meaning and truth. It is not to stop at one specific truth, but to be open to the unfoldment of the truth through the journey. This can be paved by actual roads, trails and pathways we travel along, including the inner ones in the subconscious and astral realm. The journey itself can be its own tangible, precious thing for the Sagittarian archetype, learning, exploring, and reaching out past the horizon into ever new territory.

Gateways could be opened during this Full Moon, to welcome the truth wherever it may come from and whatever it results in. Heavily inspired and drawn from the wisdom of Marc Edmund Jones and Dane Rudhyar, Lynda Hill's book, **The Sabian Oracle**, shares about each degree of the zodiac corresponding to an image or symbol. For this Sagittarius Full Moon at 23°25', we add one to come up with the symbol of 24 Sagittarius. This gives us the image of "A Bluebird, a sign of good luck and happiness, is standing at the door of the house".

The keywords of 24 Sagittarius and hence, this phase of the Moon are, "Calmness and rewards. Promise of happiness. Love and happiness available by acknowledging its presence. Real estate. House boundaries. Reminders of joy. Cottages and picket fences. Waiting for invitations to enter. Omens of good luck. Front doors and back doors." (pg 264)

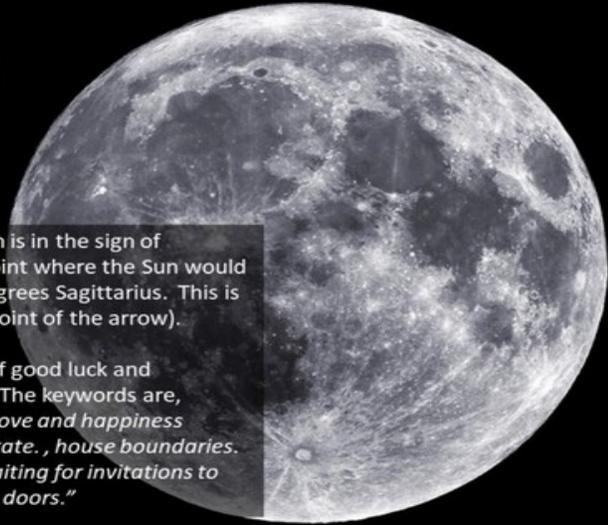

Full Moon

June 14th

23°25' Sagittarius

With the Sun in Gemini, the Full Moon this month is in the sign of Sagittarius. This Sag Full Moon is nearly at the point where the Sun would be at the near the Galactic Center, which is 27 degrees Sagittarius. This is between the Scorpion and the Archer (near the point of the arrow).

The Sabian Symbol, **24 Sag** is "A Bluebird, a sign of good luck and happiness, is standing at the door of the house". The keywords are, *"Calmness and rewards. Promise of happiness. Love and happiness available by acknowledging its presence. Real estate, house boundaries. Reminders of joy. Cottages and picket fences. Waiting for invitations to enter. Omens of good luck. Front doors and back doors."*

The meaning of all of this I intuit is something of new breath of life appearing on wings of potential. Have we locked ourselves in or are we waking up to a longing beyond the door? The blue color of the bird can symbolize the sky and seemingly infinite vastness to explore. Sagittarius wants to hop onto the trail or cosmic pathway beyond where it is. And the bluebird could be a messenger delivering an open-ended message that invites us to enter a new phase of ourselves.

The Galactic Center at 27° Sagittarius, a mere four degrees from the Full Moon (the center of the great Galactic Bulge with its billions of stars) has been seen in a variety of ancient cultures as a "golden gate" where souls travel to after departing the Earth. They go to their next life to be rebirthed in the mysteries of the supermassive black hole residing there, where time and physics tend to break down into the unknown. This acts as a backdrop of this Full Moon.

In addition, the Scorpion constellation, a guardian of the Galactic Center, with its outstretched tail and stingers sitting below the Full Moon can help us pierce the mysteries if we surrender the mind and ego to experience the limitless of what could, perhaps, be co-created with Great Mystery and each other.

On the other side of the Galactic Center is the Archer constellation, whose arrow roughly points to that center. Bordered by the tip of the Scorpion's tail and the Archer's arrow, we can draw in imagery of creation as the Galactic Center region gives birth to innumerable stars in the fire that resides there.

The Full Moon activates all of this plus the Sagittarian quest for meaning. It is a great longing for humanity to find meaning and purpose on the planet. We are in relationship with all that is and we have a deep desire to know what that means for us personally and at times for humanity. It could be this Moon that offers us a little hope to light the way, revealing the shadow and the treasures that await discovery.

The Full Moon is an important marker this year but is also at the same time is small part of the much, much larger wave of cycles of planets this decade and more that guide humanity. Sagittarius is an archetype that can show us the way ahead and the territory we can yet to encounter. It lights the way ahead in the cradle of the Milky Way.
